Weigh See Lost Pounds Months:

Worst Diet Ever Yoram Solomon, Ph.D., 2014-08-25 The reason you couldn't lose weight until now was that the present value of your long term health is lower than the effort required to lose weight In simple words it's just too hard There is no silver bullet that will reduce the effort You know what you need to do to lose weight The problem is that you lack motivation The author of this book is not an expert on nutrition or physical training but he is a researcher of motivation He shows how to add external motivation enough to expend the effort required for losing weight and how to turn that effort into habit such that you can sustain it for the rest of your life eliminating the need for the external motivation The book is built upon numerous models and research in health psychology and economics and told through the author's personal journey through the stories of Alex Valerie Matthew Don Beth and Joe and through a survey of 222 participants **Pharmaceutical**

Calculations Payal Agarwal, 2014-09-15 *Pharmaceutical Calculations* is the perfect text for students or professionals aiming to understand or develop the calculations skills that play a significant role in building a competent pharmacist This text focuses on basic math fundamentals essential for pharmaceutical calculations followed by calculations that are more specific to compounding and formulation of individual dosage This helpful approach incorporates solved examples for each individual section followed by practice sets with an answer key to each problem At the end of each chapter case studies demonstrate the application of mathematical calculations in compounding actual prescriptions **FEATURES** Practice sets Solved problems Case studies in the form of prescriptions **International Record of Medicine and General Practice Clinics** Edward
