The Balancing act of Innovation Philippe Silberzahn, Walter Van Dyck, 2011-01-18 Een absolute aanrader voor moderne bedrijven die vooruit willen Innoveren kan op duizend en n manieren De kunst is om op zoek te gaan naar uw eigen stijl en uw eigen road to innovation die de balans houdt tussen creativiteit en discipline De verschillende niveaus van innovatie op een rijtje het team en de mensen projecten business units ondernemingen en ecosystemen Het geheel is een overzicht van een reeks inspirerende innovatiestrategie n maar de hoofdstukken kunnen ook perfect apart gelezen worden Innovations are everywhere and they matter They matter because they change our lives for better or worse and because they are the source of long term growth But is innovation always the best policy Is now necessarily the best time to innovate And how exactly should we go about it This book seeks to provide the answers to some of these questions It is not a detailed manual for innovation since experience suggests that there is no such thing as a simple set of successful innovation recipes which work at all times and in all places For this reason the book written for practising managers and students of company level innovation uses a case based methodology from which readers can learn practical lessons At the same time it provides examples of creative approaches followed by less publicly well known high impact SME innovators or by leading well established firms applying less known high impact innovation strategies It shows how innovators as diverse as Bongo GreenPan Studio 100 Cronos Belgacom Mobile Arteconomy QOD Sigasi VIB Janssen Pharmaceutica and Alcatel Lucent

companies which range from big to small high tech to low tech new to old product based to service based well known to less well known have succeeded in completing their innovation journey The cases discuss topics as varied as creativity growth product leadership business model change as well as finance and commercialisation There are many possible roads to innovation Successful innovation means defining your own road The purpose of this book is to help you plan your journey along your own particular route www.thebalancingactofinnovation.com
