Storytelling and Ecology Anthony Nanson, 2021-06-17 Finalist in the PROSE Award 2022 for Language Linguistics Awarded Honors at the Storytelling World Awards 2022 Linking the ongoing ecological crisis with contemporary conditions of alienation and disenchantment in modern society this book investigates the capacity of oral storytelling to reconnect people to the natural world and enchant and renew their experience of nature place and their own existence in the world Anthony Nanson offers an in depth examination of how a diverse ecosystem of oral stories and the dynamics of storytelling as an activity can catalyse different kinds of conversation and motivation helping us resist the discourse of powerful vested interests Detailed analysis of traditional true life and fictional stories shows how spoken narrative language can imbue landscapes creatures and experiences with enchantment and mediate between the inner world of consciousness and outer world of ecology and community A pioneering ecolinguistic and ecocritical study of oral storytelling in the modern world Storytelling and Ecology offers insight into the ways that sharing stories in each other's embodied presence can open up spaces for transformation in our relationships with

the ecological world around us The Nature Principle Richard Louv, 2011-05-01 The immediacy of Richard Louv's message in *Last Child in the Woods: Saving Our Children from Nature Deficit Disorder* galvanized an international movement to reconnect children with nature. Now in *The Nature Principle* Louv reaches even further with a powerful call to action for the rest of us. Our society says Louv has developed such an outsized faith in technology that we have yet to fully realize or even adequately study how human capacities are enhanced through the power of nature. Supported by groundbreaking research, anecdotal evidence, and compelling personal stories, Louv shows us how tapping into the restorative powers of the natural world can boost mental acuity and creativity, promote health and wellness, build smarter and more sustainable businesses, communities, and economies, and ultimately strengthen human bonds. As he says in his introduction, *The Nature Principle* is about the power of living in nature, not with it but in it. We are entering the most creative period in history. The twenty-first century will be the century of human restoration in the natural world. Richard Louv makes a convincing case that through a nature-balanced existence driven by sound economic, social, and environmental solutions, the human race can and will thrive. This timely, inspiring, and important work will give readers renewed hope while challenging them to rethink the way we live.

The Cultic Milieu Jeffrey Kaplan, Helène Lööw, 2002 In 1972, a period of social upheaval much like today, sociologist Colin Campbell posited a cultic milieu: an underground region where true seekers test hidden, forgotten, and forbidden knowledge. Ideas and allegiances within the milieu change as individuals move between loosely organized groups, but the larger milieu persists in opposition to the dominant culture. Jeffrey Kaplan and Helene Loow find Campbell's theory especially useful in coming to grips with the varied oppositional groups of today. *The Psychology of Environmental Problems*, 2014-04-04 A revision of Winter's *Ecological Psychology* (1996), this book applies psychological theory and research to environmental problems. After outlining current environmental difficulties, the authors demonstrate how 6 major approaches in psychology—social, psychological, psychoanalytic, behavioral, physiological, cognitive, and holistic—can be applied to environmental problems. The authors demonstrate why it is critical to address environmental threats now and offer ideas on how psychological principles can contribute to building a sustainable culture. Personal examples engage the reader and provide suggestions for changing behavior and political structures. Reorganized and updated throughout the second edition, features a new chapter on neuropsychological and health issues, and a list of key concepts in each chapter. Cartoons and humorous analogies add a light touch to the book's serious message. Written for psychology and environmental studies students, the book is an excellent teaching tool in courses on environmental conservation or ecological issues found in departments of psychology, sociology, environmental science, and biology. It will also appeal to anyone interested in psychology's potential contributions to mounting ecological difficulties. **Eco-Informed Practice** Tracey A. Laszloffy, Markie L. C. Twist, 2019-04-17 This innovative book examines how family health and well-being have been impacted by increased alienation from the natural world and calls for greater incorporation of ecological issues into therapeutic practice. Positioning

environmental activism as a critical social justice issue the book highlights the unique opportunities for family therapists to promote reconnection healing and sustainability by integrating attention to nature and the environment into their work Contributors also recommend clinical ideas strategies and interventions that can be employed as part of this approach to therapy research and teaching Among the topics covered Developmental benefits of childhood experiences with nature Applications of indigenous healing methods in Western practice Wilderness and adventure therapy immersion Clinical educational and supervisory applications of an eco informed approach to therapy The first work of its kind to address the overlap in environmental and family sustainability in the field of family therapy *Eco Informed Practice Family Therapy in an Age of Ecological Peril* fills a significant gap in family therapy literature Students and professionals in mental health fields will find this book an enlightening perspective on family therapy as well as a set of useful guidelines for implementing this exciting new approach in clinical practice *Psychology for Sustainability* Britain A. Scott, Elise L. Amel, Susan M.

Koger, Christie M. Manning, 2015-07-24 *Psychology for Sustainability* 4th Edition known as *Psychology of Environmental Problems* *Psychology for Sustainability* in its previous edition applies psychological theory and research to so called environmental problems which actually result from human behavior that degrades natural systems This upbeat user friendly edition represents a dramatic reorganization and includes a substantial amount of new content that will be useful to students and faculty in a variety of disciplines and to people outside of academia as well The literature reviewed throughout the text is up to date and reflects the burgeoning efforts of many in the behavioral sciences who are working to create a more sustainable society The 4th Edition is organized in four sections The first section provides a foundation by familiarizing readers with the current ecological crisis and its historical origins and by offering a vision for a sustainable future The next five chapters present psychological research methods theory and findings pertinent to understanding and changing unsustainable behavior The third section addresses the reciprocal relationship between planetary and human wellbeing and the final chapter encourages readers to take what they have learned and apply it to move behavior in a sustainable direction The book concludes with a variety of theoretically and empirically grounded ideas for how to face this challenging task with positivity wisdom and enthusiasm This textbook may be used as a primary or secondary textbook in a wide range of courses on Ecological Psychology Environmental Science Sustainability Sciences Environmental Education and Social Marketing It also provides a valuable resource for professional audiences of policymakers legislators and those working on sustainable communities *This Sacred Earth* Roger S. Gottlieb, 2003-11-07 Updated with nearly forty new selections to reflect the tremendous growth and transformation of scholarly theological and activist religious environmentalism the second edition of *This Sacred Earth* is an unparalleled resource for the study of religion s complex relationship to the environment

Regenerative Urban Development, Climate Change and the Common Good Beth Caniglia, Beatrice Frank, John L. Knott, Jr., Kenneth S. Sagendorf, Eugene A. Wilkerson, 2019-08-06 This volume focuses on the theory and practice of the

regenerative development paradigm that is rapidly displacing sustainability as the most fertile ground for climate change adaptation research This book brings together key thinkers in this field to develop a meaningful synthesis between the existing practice of regenerative development and the input of scholars in the social sciences It begins by providing an expert introduction to the history principles and practices of regenerative development before going on to present a thorough theoretical examination by known theorists from disciplines including sociology geography and ethics A section on regenerative development practices illustrates the need to significantly advance our understanding of how urbanization climate change and inequality interact at every scale of development work Finally the book ends with a serious consideration of the ways in which integrated systems thinking in higher education could result in a curriculum for the next generation of regenerative development professionals *Regenerative Urban Development Climate Change and the Common Good* will be of great interest to students scholars and practitioners of regenerative development climate change urban planning and public policy

Groundwork for a Transpersonal Psychoanalysis Robin Brown, 2019-09-18 This book explores how a deeper engagement with the theme of spirituality can challenge and stimulate contemporary psychoanalytic discourse Bringing relational psychoanalysis into conversation with Jungian and transpersonal debates the text demonstrates the importance of questioning an implicit reliance on secular norms in the field With reference to recognition theory and shifting conceptions of enactment Brown shows that the continued evolution of relational thinking necessitates an embrace of the transpersonal and a move away from the secular viewpoint in analytic theory and practice With an outlook at the intersection of intrapsychic and intersubjective perspectives *Groundwork for a Transpersonal Psychoanalysis* will be a valuable resource to analysts looking to incorporate a more pluralistic approach to clinical work

The Voice Of The Earth An Exploration Of Ecopsychology: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. The Voice Of The Earth An Exploration Of Ecopsychology : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
