Argonaut, 1903 **The Internet and Social Change** Carla G. Surratt, 2017-07-06 Starting with only four hosts in 1969 the Internet consisted of more than 56 million hosts by the end of 1999 In 1993 the World Wide Web was only 130 sites strong six years later it boasted more than seven million sites Despite this explosive growth of the Internet and computer technology little is known about the social implications of computer mediated communications In this work the author uses social science theory to evaluate the social transformations taking place today She asks whether human beings use the Internet to change basic social institutions and if so whether these changes are a matter of degree only or represent an overthrow of previous modes of organizing The work examines the rise of the Internet as the logical extension of the Industrial Revolution and urbanization consistent with the basic tenets of modernity and offers a new conceptual framework through which to understand the Internet

The World's Work, 1911 A history of our time **School Libraries in a Time of Change** Kathleen W. Craver, 2019-08-01 By becoming practical futurists school librarians can help their libraries not only to survive sweeping changes in education but to thrive This book shows how to spot technological trends and use them to your library's advantage During this time of rapid modernization of technology and educational reform this book is a must read for school librarians tasked with ensuring their libraries meet evolving standards This title provides the research and organizational techniques and skills they need to gain seats at the table of the three power committees technology curricula and strategic planning School librarians need to collect and publicize national and local school based evidence that shows the positive

correlations between school librarians and student achievement Craver notes correlative sources and provides ideas to employ them to ensure that school librarians remain indispensable In addition acquiring technological skills and becoming expert at their application are paramount for librarians Even more important is the need for librarians to assume sole responsibility for designing and integrating information literacy and critical thinking skills throughout the curriculum Craver analyzes studies that show students inability to discern fact from fiction ads from news and information bias in electronic information sources and recommends six actions that school librarians take to ensure that they become active participants in their future rather than its victims
