Writing Down The River Into The Heart Of The Grand Canyon:

Writing Down the River, 1998 Copious dramatic color photographs and poetic quotations illustrate these essays describing the whitewater rafting experiences of 15 prominent female writers sent down the Colorado River during the summer of 1997 11x10 Annotation copyrighted by Book News Inc Portland OR **Writing the Southwest** David King Dunaway, Sara L. Spurgeon, 2003 The accompanying CD provides excerpts from the interviews with the authors Writing the Goodlife Priscilla Solis Ybarra, 2016-05-12 Winner of the Western Literature Association's 2017 Thomas J Lyon Book Award in Western American Literary and Cultural Studies Mexican American literature brings a much needed approach to the increasingly urgent challenges of climate change and environmental injustice Although current environmental studies work to develop new concepts Writing the Goodlife looks to long established traditions of thought that have existed in Mexican American literary history for the past century and a half During that time period Mexican American writing consistently shifts the focus from the environmentally destructive settler values of individualism domination and excess toward the more beneficial refrains of community non possessiveness and humility The decolonial approaches found in these writings provide rich examples of mutually respectful relations between humans and nature an approach that Priscilla Solis Ybarra calls goodlife writing Goodlife writing has existed for at least the past century Ybarra contends but Chicana o literary history's emphasis on justice and civil rights eclipsed this tradition and hidden it from the general public's view Likewise in ecocriticism the voices of people of color most often appear in deliberations about environmental justice The quiet power of goodlife writing certainly challenges injustice to be sure but it also brings to light the decolonial environmentalism heretofore obscured in both Chicana o literary history and environmental literary studies Ybarra's book takes on two of today's most discussed topics the worsening environmental crisis and the rising Latino population in the United States and puts them in literary historical context from the U S Mexico War up to today's controversial policies regarding climate change immigration and ethnic studies This book uncovers 150 years worth of Mexican American and Chicana o knowledge and practices that inspire hope in the face of some of today's biggest challenges **Deep in the Heart of Texas**, 1999 In this companion volume to Texas Cattle Barons Ryan invites readers to venture beyond the ranch gate to share ranchers insights on their work and lifestyle 100 photos Tributary Voices Paul A. Formisano, 2022-04-26 The Colorado River is in crisis Persistent drought climate change and growing demands from ongoing urbanization threaten this life source that provides water to more than forty million people in the U S and Mexico Coupled with these challenges are our nation's deeply rooted beliefs about the region as a frontier garden and wilderness that have created competing agendas about the river as something to both exploit and preserve Over the last century and a half citizens and experts looked to law public policy and science to solve worsening water problems Yet today's circumstances demand additional perspectives to foster a more sustainable relationship with the river Through literary rhetorical and historical analysis of some of the Colorado River's lesser known

stakeholders Tributary Voices considers a more comprehensive approach to river management on the eve of the one hundredth anniversary of the signing of the Colorado River Compact which governs the allocation of water rights to the seven states in the region Ranging from the early twentieth century to the present Tributary Voices examines nature writing women s narratives critiques of dam development the Latina o communities appeals for river restoration American Indian authors and tribal nations claims of water sovereignty and teachings about environmental stewardship and provident living This innovative study models an interdisciplinary approach to water governance and reinvigorates our imagination in achieving a more sustainable water ethic

West of 98 Lynn Stegner,Russell Rowland,2012-07-25 What does it mean to be a westerner With all the mythology that has grown up about the American West is it even possible to describe how it was how it is here in the West just that in the words of Lynn Stegner Starting with that challenge Stegner and Russell Rowland invited several dozen members of the western literary tribe to write about living in the West and being a western writer in particular West of 98 gathers sixty six literary testimonies in essays and poetry from a stellar collection of writers who represent every state west of the 98th parallel a kind of Greek chorus of the most prominent voices in western literature today who seek to characterize the West as each of us grew to know it and equally important the West that is still becoming In West of 98 western writers speak to the ways in which the West imprints itself on the people who live there as well as how the people of the West create the personality of the region The writers explore the western landscape how it has been revered and abused across centuries and the inescapable limitations its aridity puts on all dreams of conquest and development They dismantle the boosterism of manifest destiny and the cowboy and mountain man ethos of every man for himself and show instead how we must create new narratives of cooperation if we are to survive in this spare and beautiful country The writers seek to define the essence of both actual and metaphoric wilderness as they journey toward a West that might honestly be called home A collective declaration not of our independence but of our interdependence with the land and with each other West of 98 opens up a whole new panorama of the western experience *Let's Hear It* Sylvia Ann Grider,Lou Halsell Rodenberger,2003 A collection of 22 stories by Texas women writers that weave a story of their own the story of women s writing in the Lone Star State from 1865 to the present Authors include Berverly Lowry Carolyn Osborn Annette Sanford Denise Chavez Katherine Anne Porter Judy Alter and Joyce Gibson Roach

Twentieth-century American Nature Writers Roger Thompson,J. Scott Bryson,2003 Essays on distinctly American nature writers from the earliest to the most recent that have consistently sought to convey both their wonder at the natural world and their individual personal experiences within it

A Colorado River Reader Richard F. Fleck,2000 Collects seventeen pieces celebrating the Colorado River and its environs The Grand Canyon of Arizona George Wharton James,1912

Contemporary American Women Fiction Writers Laurie Champion,Rhonda Austin,2002-11-30 Presents alphabetized profiles of more than sixty twentieth and twenty first century American women fiction writers such as Sandra Cisneros Toni Morrison and

Joyce Carol Oates describing their lives major works and themes and critical receptions and providing primary and secondary

Western American Literature ,2009 *Latino and Latina Writers* Alan West,2004 A two volume bio bibliographical and critical examination of numerous Cuban Dominican Chicano and Puerto Rican writers Includes only authors who have published since 1960 Bibliographic Guide to Chicana and Latina Narrative Kathy Leonard,2003-08-30 Having produced a 1997 bibliography of short fiction by Latin American women that appears in English language anthologies Leonard Spanish and Hispanic linguistics Iowa State U decided to create one that incorporated the many works that did not meet the strict criteria Her guide to narrative work by women of Latin American descent who were born and raised in the US or have resided there for a significant part of their lives is designed to serve the growing attention such writers and works are attracting in academic circles Annotation c 2003 Book News Inc Portland OR booknews com World Authors, 1995-2000 Mari Rich,Olivia J. Smith,Clifford Thompson,2003 Representing a broad range of ethnic diversity these in depth profiles present fascinating accounts of lives and careers the circumstances under which works were produced and their literary significance Each profile also includes critical evaluation a list of the author s principal works with date first published a list of major critical works and a portrait or photograph where available **Ranching West of the 100th Meridian** Richard L. Knight,Wendell Gilgert,Ed Marston,2002 Recommended by The Nature Conservancy magazine Ranching West of the 100th Meridian offers a literary and thought provoking look at ranching and its role in the changing West The book s lyrical and deeply felt narratives combined with fresh information and analysis offer a poignant and enlightening consideration of ranchers ecological commitments to the land their cultural commitments to American society and the economic role ranching plays in sustainable food production and the protection of biodiversity The book begins with writings that bring to life the culture of ranching including the fading reality of families living and working together on their land generation after generation The middle section offers an understanding of the ecology of ranching from issues of overgrazing and watershed damage to the concept that grazing animals can actually help restore degraded land The final section addresses the economics of ranching in the face of declining commodity prices and rising land values brought by the increasing suburbanization of the West Among the contributors are Paul Starrs Linda Hasselstrom Bob Budd Drummond Hadley Mark Brunson Wayne Elmore Allan Savory Luther Propst and Bill Weeks Livestock ranching in the West has been attacked from all sides by environmentalists who see cattle as a scourge upon the land by fiscal conservatives who consider the leasing of grazing rights to be a massive federal handout program and by developers who covet intact ranches for subdivisions and shopping centers The authors acknowledge that if done wrong ranching clearly has the capacity to hurt the land But if done right it has the power to restore ecological integrity to Western lands that have been too long neglected Ranching West of the 100th Meridian makes a unique and impassioned contribution to the ongoing debate on the future of the New West
