Writing In The Devils Tongue A History Of English Composition In China:

Writing in the Devil's Tongue Xiaoye You, 2010-01-29 Winner CCCC Outstanding Book Award Until recently American composition scholars have studied writing instruction mainly within the borders of their own nation rarely considering English composition in the global context in which writing in English is increasingly taught Writing in the Devil's Tongue challenges this anachronistic approach by examining the history of English composition instruction in an East Asian country Author Xiaoye You offers scholars a chance to observe how a nation changed from monolingual writing practices to bilingual writing instruction in a school setting You makes extensive use of archival sources to help trace bilingual writing instruction in China back to 1862 when English was first taught in government schools Treating the Chinese pursuit of modernity as the overarching theme he explores how the entry of Anglo American rhetoric and composition challenged and altered the traditional monolithic practice of teaching Chinese writing in the Confucian spirit The author focuses on four aspects of this history the Chinese negotiation with Anglo American rhetoric their search for innovative approaches to instruction students situated use of English writing and local scholarship in English composition Unlike previous composition histories which have tended to focus on institutional disciplinary and pedagogical issues Writing in the Devil's Tongue brings students back to center stage by featuring several passages written by them in each chapter These passages not only showcase rhetorical and linguistic features of their writings but also serve as representative anecdotes that reveal the complex ways in which students responding to their situations performed multivalent intercultural discourses In addition You moves out of the classroom and into the historical cultural and political contexts that shaped both Chinese writing and composing practices and the pedagogies that were adopted to teach English to Chinese in China Teachers students and scholars reading this book will learn a great deal about the political and cultural impact that teaching English composition has had in China and about the ways in which Chinese writing and composition continues to be shaped by rich and diverse cultural traditions and political discourses In showcasing the Chinese struggle with teaching and practicing bilingual composition Writing in the Devil's Tongue alerts American writing scholars and teachers to an outdated English monolingual mentality and urges them to modify their rhetorical assumptions pedagogical approaches and writing practices in the age of globalization

"Guiguzi," China's First Treatise on Rhetoric

,2016-08-19 When Gorgias Plato and Aristotle were discussing and defining rhetoric in ancient Greece many students in China including Sun Bin a descendent of Sun Tzu who wrote The Art of War were learning the techniques of persuasion from Guiguzi the Master of the Ghost Valley This pre Qin dynasty recluse provided the basis for what is considered the earliest Chinese treatise devoted entirely to the art of persuasion Called Guiguzi after its author this translation of the received text provides an indigenous rhetorical theory and key persuasive strategies some of which are still used by those involved in decision making and negotiations in China today In Guiguzi China's First Treatise on Rhetoric Hui Wu and C Jan Swearingen present a new critical translation of this foundational work which has great historical significance for the study of Chinese rhetoric and communication and yet is little known to Western readers Wu's translation includes footnotes that incorporate both past and present scholarly commentary and is accompanied by a prefatory introduction that situates Guiguzi in the sociopolitical and cultural realities of ancient China and a glossary of rhetorical terms used in the treatise Swearingen presents a comparative study suggesting the similarities and differences between emerging Greek and Chinese rhetorics during the same period including the cultural contexts of warring states and emergent empires that surrounded each Guiguzi China's First Treatise on Rhetoric combines a new translation of a historically significant text with scholarly analysis and critical apparatus that will contribute to the emerging global understanding of Chinese rhetoric and communication

Cosmopolitan English and Transliteracy Xiaoye You,2016-08-31 Winner CCCC Research Impact Award 2018 Despite the vast number of multilingual speakers in the United States and the pervasive influence of globalization writing studies in this country is still inextricably linked to a nationalistic monolingual English ideology In Cosmopolitan English and Transliteracy Xiaoye You addresses this issue by proposing that writing studies programs adopt a cosmopolitan perspective Emphasizing local and global forms of citizenship and identification You merges a humanistic vision with the rigor of social science arguing that linguistic and cultural differences can be explored to recover human connections normally severed by geographical and semiotic borders You examines several areas of writing affected by globalization He then turns to the composition classroom highlighting the challenges and possibilities of crossing cultural boundaries in academic discourse

before introducing a pedagogy aimed at fostering American students translingual and transcultural sensibilities Included is a model for training writing teachers in the context of globalization which aims to help instructors gain practical knowledge about the needs and resources of multilingual writers through communication technologies and cross cultural partnerships By introducing cosmopolitan perspectives into the composition classroom You challenges traditional assumptions about language identity and literacy as they relate to writing studies Innovative and provocative Cosmopolitan English and Transliteracy charts a new way forward for writing programs with a call to focus on global rather than national identity
