

The background of the cover is a traditional marbled paper pattern, often called a 'stone' or 'shell' pattern. It features a light beige or cream-colored base, overlaid with irregular, swirling patches of dark brown, black, and muted reddish-brown. The overall effect is organic and textured, reminiscent of natural stone or biological cells. A white rectangular box is centered horizontally and positioned in the upper half of the cover, containing the title text.

Writings On War Writings On War:

Sacrifice and Modern War Writing Alex Houen, 2024-09-05 Sacrifice and Modern War Writing presents the most extensive study to date of twentieth and twenty first century war writing Examining works by over 110 authors Alex Houen surveys how war writing explores sacrifice in relation to major modern and contemporary conflicts from the First World War to the War on Terror Various conceptions of sacrifice are examined including Christian Jewish Islamic and secular The discussion ranges across literary portrayals of multiple sacrificial practices including ancient rituals of child sacrifice martyrdom scapegoating and suicide bombing Houen builds an innovative interdisciplinary approach to how war sacrifice and their representations interrelate and a wide range of Anglophone literature is discussed including novels memoirs short stories essays manifestoes elegies ballads and lyric poetry Whereas critics and theorists have tended to emphasize that war's reality exceeds any attempt to represent it Houen contends that political religious and cultural frames of sacrifice have continued to play a significant part in shaping how war's reality is shaped and experienced Those frames are inextricably tied to modes of representation which include symbolism and mimesis Sacrifice and Modern War Writing explores how sacrificial killing in war is itself riddled with symbolic transfigurations and mimetic exchanges and it builds a fresh approach by arguing that the figurative and imaginative aspects of literary writing ironically become its very means of engaging closely with the reality of war's sacrifices That approach also develops by using the literary analyses to critique and revise various prominent theories of sacrifice and war

Writing War and Reunion Jeffery J. Rogers, 2020-08-25 A collection of Civil War and Reconstruction era journalism by one of the most popular and acclaimed authors of the antebellum South Nineteenth century writer William Gilmore Simms was once considered the South's premier literary figure with achievements including more than twenty major novels several volumes of poetry and biographies of important figures in American history Less well known are his newspaper writings which include fascinating and trenchant work from the era of the Civil War and Reconstruction Writing War and Reunion offers a selection of the best of Simms's articles and editorials from that period offering a window into his thoughts on the conflict and its deeply fraught resolution In the decades following the Civil War Simms's reputation suffered a steady decline Because of his associations with the antebellum South slavery and Confederate defeat as well as changes in literary tastes Simms came to be regarded as a talented but failed Southern author of a bygone era Today a robust scholarly literature has reexamined Simms and finds him to have been an important figure in the development of nineteenth century American literature and worthy of serious study

War: How Conflict Shaped Us Margaret MacMillan, 2020-10-06 Is peace an aberration The New York Times bestselling author of Paris 1919 offers a provocative view of war as an essential component of humanity NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW Margaret MacMillan has produced another seminal work She is right that we must more than ever think about war And she has shown us how in this brilliant elegantly written book H R McMaster author of Dereliction of Duty and Battlegrounds The Fight to Defend the Free World The instinct to fight may be innate in human nature but war organized violence comes with organized society War has shaped humanity's history its social and political institutions its values and ideas Our very language our public spaces our private memories and some of our greatest cultural treasures reflect the glory and the misery of war War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity Margaret MacMillan looks at the ways in which war has influenced human society and how in turn changes in political organization technology or ideologies have affected how and why we fight War How Conflict Shaped Us explores such much debated and controversial questions as When did war first start Does human nature doom us to fight one another Why has war been described as the most organized of all human activities Why are warriors almost always men Is war ever within our control Drawing on lessons from wars throughout the past from classical history to the present day MacMillan reveals the many faces of war the way it has determined our past our future our views of the world and our very conception of ourselves

Herodotus,1908 The Publishers Weekly ,1908 **On War and Writing** Samuel Hynes,2018-02-27 In our imaginations war is the name we give to the extremes of violence in our lives the dark dividing opposite of the connecting myth which we call love War enacts the great antagonisms of history the agonies of nations but it also offers metaphors for those other antagonisms the private battles of our private lives our conflicts with one another and with the world and with ourselves Samuel Hynes knows war personally he served as a Marine Corps pilot in the Pacific Theater during World War II receiving the Distinguished Flying Cross He has spent his life balancing two careers pilot and professor of literature Hynes has written a number of major works of literary criticism as well as a war memoir Flights of Passage and several books about the World Wars His writing is sharp lucid and has provided some of the most expert detailed and empathetic accounts of a disappearing generation of fighters and writers On War and Writing offers for the first time a selection of Hynes s essays and introductions that explore the traditions of war writing from the twentieth century to the present Hynes takes as a given that war itself the battlefield uproar of actual combat is unimaginable for those who weren t there yet we have never been able to turn away from it We want to know what war is really like for a soldier on the Somme a submariner in the Pacific a bomber pilot over Germany a tank commander in the Libyan desert To learn we turn again and again to the memories of those who were there and to the imaginations of those who weren t but are poets or filmmakers or painters who give us a sense of these experiences that we can t possibly know The essays in this book range from the personal Hynes s experience working with documentary master Ken Burns his recollections of his own days as a combat pilot to the critical explorations of the works of writers and artists such as Thomas Hardy E E Cummings and Cecil Day Lewis What we ultimately see in On War and Writing is not military history not the plans of generals but the feelings of war as young men expressed them in journals and poems and old men remembered them in later years men like Samuel Hynes **Pacifism and Rebellion in the Writings of Herman Melville** John Bernstein,1964 **Consolidated Laws of the Colony of British Honduras** British Honduras,1887
