Www Tcu Go Tz Guide:

Jimu: Inside the Higher Education Space, 2023-06-27 This book is empirically grounded on Ignasio Malizani Jimu's firsthand experience of governance and quality control in Malawi higher education. Informed by the liberalisation of higher education and the quality turn in Africa, this book reflects on higher education policy, how higher education institutions manage their core business processes, the dynamic character of their stakeholdership and governance and management arrangements that are involved. Its primary purpose is to contribute to the discourse on increasing access to regulation of and more importantly the pursuit of quality culture in higher education. Key questions, insights and directions have been packaged in eight chapters, some of which are the purpose and inclusion in higher education stakeholdership context and quality culture in private higher education institutions, peer reviews as quality control mechanism, quality rating of institutions and setting and operating quality assurance units. It is intended for higher education managers, policy makers and students of higher education management.

Gender-Inclusive Higher Education in Tanzania Susan P. Murphy, Perpetua John Uriu, 2024-08-02 Whilst there is an extensive body of research exploring the barriers to gender equality and female empowerment in high income states, there are far fewer systematic analyses within lower income settings. This book draws on extensive empirical data to analyse gender mainstreaming and gender transformative actions in Tanzanian higher education. The book maps the practical landscape of gender mainstreaming across 14 universities in Tanzania and the theoretical landscape of African theories of masculinities and femininities underpinning educational institutions and practices. It then assesses the Gender Awareness and Transformation through Education project which was designed to support the development of gender expertise and capacities in research and education at one specific institution across both its administrative and academic units. Current and future academics at Dar es Salaam University College of Education were trained in gender based research and education and a strategic plan was developed to guide in the establishment of a Gender Research Centre that will provide gender expertise in research and teaching to the College and over time to other HEIs nationally and regionally. By bringing together real world insights from action based research, the book demonstrates the impact of real time social change and gender transformation with implications both for Tanzania and beyond. Bringing novel empirical insights and policy recommendations, this book will be of interest to researchers and policy makers across the fields of gender studies, education and African studies.

Religion, Disability, and Sustainable Development in Africa Chioma Ohajunwa, Kudakwashe 'AK' Dube, Ezra Chitando, 2025-02-14 This book investigates the interplay between disability and religion in Africa and what this means in the context of the Sustainable Development Goals. The importance of meeting the

needs of people with disabilities is highlighted specifically in several Sustainable Development Goals as well as being emphasised as a cross cutting issue across all the goals Over 1 billion people are estimated to be living with disabilities and 80% of this population live in the Global South many within Africa This book argues that within this context religion must be considered as people with disabilities often turn to religion for solace in confronting the daily struggles and pains that they face Drawing on multiple disciplinary lenses this book reflects on how traditional indigenous Abrahamic and other African minority religions and philosophies interact with disability and how this relates to the Sustainable Development Goals The book demonstrates how religions in Africa conceptualise imagine or re imagine disability in the context of key themes such as gender ecological justice health poverty education employment entrepreneurship and migration Overall the book invites researchers from across the social sciences to consider how African religious theological and philosophical ideas can help towards the inclusion of people with disabilities in the 2030 development agenda in Africa

States and Public Policy Olivier Provini, 2025-08-03 Why did students start paying tuition fees at African universities How did public universities become increasingly expensive for the large numbers of young people they are supposed to be educating This book helps us to understand the reasons for this and reminds us that change is always the result of political compromise The book looks at the higher education reforms carried out since the 1980s in four East African countries with unique historical and political trajectories Uganda Kenya Tanzania and Burundi Through a rigorous well documented analysis the author provides valuable insights into the fundamental political issues facing development actors in the South the transformation of state intervention the training of national elites and the marketing of the education sector particularly through the highly political issue of school fees
