Scanning at the Touch of a Button

Do you want to do more with the paper on your desk? Would you like to copy it, collect it, file it, search it, mail it and make it disappear? Sounds like scanning doesn't it? How about if you could do it all with just one touch?

The DocuMate 515 powered by Visioneer OneTouch™ technology scans documents using three preset buttons for your most common destinations, yet they are completely configurable. This enables your document to be scanned with the proper settings for resolution, color, auto-crop, auto-straighten, file format and then delivered to virtually any application, folder or device – at the touch of a button!

Perfect Scans for Imperfect Originals

Visioneer OneTouch with Bullseye™ VRC™ (VirtualOffsetScan) technology is integrated into the scanner driver so that you get perfect scans from imperfect originals. VRC also eliminates the need to rescan documents through automatic cropping, straightening, brightness control and edge clean-up. All this is integrated into Visioneer OneTouch so your entire scanning requirements are achieved at the touch of a button.

Most new users in document imaging are not scanner experts, so simplest, point-and-click solutions that deliver high-quality images and integration with business applications are essential.
