Directors of Central Intelligence as Leaders of the U.S. Intelligence Community, 1946-2005 Douglas F. Garthoff, 2007 President Harry Truman created the job of director of central intelligence DCI in 1946 so that he and other senior administration officials could turn to one person for foreign intelligence briefings The DCI was the head of the Central Intelligence Group until 1947 when he became the director of the newly created Central Intelligence Agency This book profiles each DCI and explains how they performed in their community role that of enhancing cooperation among the many parts of the nation's intelligence community and reporting foreign intelligence to the president The book also discusses the evolving expectations that U S presidents through George W Bush placed on their foreign intelligence chiefs Although head of the CIA the DCI was never a true national intelligence chief with control over the government's many arms that collect and analyze foreign intelligence This limitation conformed to President Truman's wishes because he was wary of creating a powerful and all knowing intelligence chief in a democratic society After the terrorist attacks of September 11 2001 Congress and President Bush decided to alter the position of DCI by creating a new director of national intelligence position with more oversight and coordination of the government's myriad programs Thus this book ends with Porter Goss in 2005 the last DCI Douglas Garthoff's book is a unique and important study of the nation's top intelligence official over a roughly fifty year period His work provides the detailed historical framework that is essential for all future studies of how the U S intelligence community has been and will be managed

Directors of Central Intelligence as Leaders of the U.S. Intelligence Community, 1946-2005 Douglas F. Garthoff, 2005 Author and former senior CIA official Dr Douglas F Garthoff explains how each Director of Central Intelligence or DCI sought to fulfill his community role that of enhancing the cooperation among the many parts of the nation's intelligence community under his leadership Explores that the nation's leaders expected of directors and how those holding the responsibility attempted to carry it out The story first takes up the roots of the DCI's community role and then proceeds chronologically describing the various approaches that successive DCIs have taken toward fulfilling their responsibilities in this regard from the launch of the CIA At the end it sums up the circumstances as of 2005 under the George W Bush administration when a new official the Director of National Intelligence or DNI replaced the DCI role and some observations about these changes and looking to the future

S. Intelligence Community** Douglas Garthoff, Central Agency, 2012-08-01 In the wake of 11 September 2001 the issue of homeland security spawned a vibrant public discussion about the need to coordinate a wide range of federal governmental activities to achieve greater security for the United States Congress enacted laws that established a new executive department the Department of Homeland Security and a new federal intelligence chief the director of national intelligence In both cases the objective was to integrate activities of disparate organizations better in order to improve critical government functions In fact for more than half a century there have been numerous efforts to enhance cooperation among the many parts of the nation s intelligence establishment under the leadership of a principal intelligence official called the director of central intelligence The story of this study is what the nation s leaders expected of directors of central intelligence in accomplishing this task and how those who held the responsibility attempted to carry it out The hope is that lessons drawn from that experience can inform today s ongoing debate about how best the new director of national intelligence can accomplish America s national intelligence mission The study presents an unusual perspective Examinations of past intelligence performance often focus on how intelligence has played a role in specific circumstances Studies of directors of central intelligence have usually stressed how they led the Central Intelligence Agency conducted their relationships with the president or affected US policy No study until this one has focused on how each director sought to fulfill his community role This book was prepared under the auspices of the Center for the Study of Intelligence by Dr Douglas F Garthoff a former CIA analyst and senior manager It reflects the author s deep experience in Intelligence Community affairs as well as his extensive research and interviews Dr Garthoff s study represents a valuable contribution to our professional literature and a rich source of insights at a moment when the

Zegart, 2013-09-01 Amy Zegart examines the weaknesses of US intelligence oversight and why those deficiencies have persisted despite the unprecedented importance of intelligence in today's environment. She argues that many of the biggest oversight problems lie with Congress, the institution, not the parties or personalities, showing how Congress has collectively and persistently tied its own hands in overseeing intelligence.
