K. Walsh,Andrekos Varnava,2021-09-02 A century after the Armistice and the associated peace agreements that formally ended the Great War many issues pertaining to the UK and its empire are yet to be satisfactorily resolved Accordingly this volume presents a multi disciplinary approach to better understanding the post Armistice Empire across a broad spectrum of disciplines geographies and chronologies Through the lens of diplomatic social cultural historical and economic analysis the chapters engage with the histories of Lagos and Tonga Cyprus and China as well as more obvious geographies of empire such as Ireland India and Australia Though globally diverse and encompassing much of the post Armistice century the studies are nevertheless united by three common themes the interrogation of that transitional moment after the Armistice that lingered well beyond the final Treaty of Lausanne in 1924 the utilisation of new research methods and avenues of enquiry to compliment extant debates concerning the legacies of colonialism and nationalism and

the common leitmotif of the British Empire in all its political and cultural complexity The centenary of the Armistice offers a timely occasion on which to present these studies *The Western Front of the Eastern Church* Barbara Skinner, 2009 This book addresses the shifting identity of Ruthenians on both sides of Orthodox Uniate divide The dissolution of the Polish Lithuanian Commonwealth in the late 18th century and the incorporation of the majority of the Ruthenians ethnic Ukrainians and Belarusians into the Russian Empire from the backdrop for confessional history critical to modern Ukrainian Belarusian and Russian identities In a region long shaped by religious and cultural tensions between the Roman Catholic and Eastern Orthodox churches the creation in 1596 of the Uniate church which retained the Eastern rite but accepted Catholic doctrine cut a new religious fault line through Ruthenian communities that set the stage for religious and political conflict Drawing on archival sources from Russia Poland and Ukraine *The Western Front of the Eastern Church* addresses the shifting identity and fate of Ruthenians on both sides of the Orthodox Uniate divide during the politically charged era of the partitions of Poland Skinner investigates diverging components of these faith communities in the 18th century the changing political landscape as the Russian Empire expanded its borders and the religious tensions and violence that occurred as a result She reveals cultural influences that shaped Ukrainian and Belarusian identities and sheds light on aspects of Russian imperial identity and mythology as it laid claim to its western borderlands The confessional focus critiques the nationalist perspective that has dominated the presentation of Ukrainian and Belarusian history and Skinner's treatment brings the region into the broader discussion of confessional development in Europe as a whole The narrative culminates in the Uniate conversions under Catherine II providing new insight into the limits of religious toleration in Catherinian Russia This book is essential reading for Russian and East European historians and those interested in the history of relations between the Roman Catholic and Orthodox churches as well as those studying the tensions between Russia Ukraine and Belarus today

German war plan was a gamble that seemed to present the only solution to the riddle of the two front war But as the Moltke Schlieffen Plan was gradually jettisoned through a combination of intentional command decisions and confused communications Germany's hopes for a quick and victorious campaign evaporated
