Expanding Adaptation Networks Kate Newell, 2017-05-22 This book addresses print based modes of adaptation that have not conventionally been theorized as adaptations such as novelization illustration literary maps pop up books and ekphrasis It discusses a broad range of image and word based adaptations of popular literary works among them *The Wizard of Oz* *Alice in Wonderland* *Daisy Miller* *The Strange Case of Dr Jekyll and Mr Hyde* *Moby Dick* and *Adventures of Huckleberry Finn* The study reveals that commercial and franchise works and ephemera play a key role in establishing a work's iconography Newell argues that the cultural knowledge and memory of a work is constructed through reiterative processes and proposes a network based model of adaptation to explain this Whereas most adaptation studies prioritize film and television this book's focus on print invites new entry points for the study of adaptation
