The Invention of the Inspired Text John C. Poirier, 2021-01-28 John C Poirier examines the theopneustic nature of the Scripture as a response to the view that inspiration lies at the heart of most contemporary Christian theology In contrast to the traditional rendering of the Greek word theopneustos as God inspired in 2 Tim 3 16 Poirier argues that a close look at first and second century uses of theopneustos reveals that the traditional inspirationist understanding of the term did not arise until the time of Origen in the early third century CE and that in every pre Origen use of theopneustos the word instead means life giving Poirier thus conducts a detailed investigation of theopneustos as it appears in the fifth Sibylline Oracle the Testament of Abraham Vettius Valens Pseudo Plutarch Placita Philosophorum and Pseudo Phocylides all of whom understand the word to mean life giving He also studies the use of the cognate term theopnous in Numenius the Corpus Hermeticum on an inscription at the Great Sphinx of Giza and on an inscription at a nymphaeum at Laodicea on the Lycus Poirier argues that a rendering of life giving also fits better within the context of 2 Tim 3 16 and that this meaning survived late enough to figure in a fifth century work by Nonnus of Panopolis He further traces the pre Origen use of theopneustos among the Church Fathers Poirier concludes by addressing the implication of rethinking the traditional understanding of Scripture stressing that the lack of God inspired scripture ultimately does not affect the truth status of the gospel as preached by the apostles

Studies of the Dream as a Technical Device in Latin Epic and Drama ... John Barker Stearns,1927

The Dream and Human Societies G. E. Von Grunebaum,Roger Caillois,2023-07-28 The study of dreams and their role in human societies particularly within classical Islam provides a fascinating lens through which to understand both individual and collective psychology In medieval Islamic culture dreams were seen not only as personal experiences but as profound communications from the divine or supernatural This belief system imbued the dream with cognitive power often interpreting dreams as forms of prophecy or divine messages a view that transcended the individual s inner psyche and extended into the realm of objective truth Dreams were considered a bridge to understanding the future the Hereafter and the will of God with scholars like Abdalghani an N bulus developing elaborate systems for interpreting their meanings These interpretations drew heavily from religious texts such as the Koran and Hadith and offered guidance on a variety of matters ranging from personal conduct to political affairs The significance of dreams within classical Islam is also evident in their societal and political implications Dreams were not only seen as personal revelations but also as instruments of prophecy often used to predict the death of rulers the success of military campaigns or the outcomes of political struggles They were deeply intertwined with religious doctrines with the Prophet Muhammad and various saints appearing in dreams to guide or advise key figures in

Islamic history These dream visions were viewed as essential tools for navigating both the personal and political spheres reinforcing the belief that the dream world was closely linked with the divine order The widespread acceptance of dreams as a form of truth is a striking contrast to contemporary Western thought where dreams are more commonly seen as reflections of the subconscious mind In this sense the historical and cultural context of classical Islam elevated the dream to a status that intertwined it with both personal and societal identity suggesting a powerful intersection of religion politics and individual experience This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1966 *The Plenary Inspiration of the Holy Scriptures* Eleazar Lord,1857

Visions of Statesmanship David Hansen,2024-03-12 In Visions of Statesmanship A Statesman s Imagination and Autonomy David Hansen provides a critical examination of the figure of the statesman as it has been presented in the philosophical reflections of three key thinkers Plato Yannis Markrygiannis and Cornelius Castoriadis In the course of the analysis the chapters broadly investigate and assess the complex reception history that obtains among this particular configuration of intellectual history by offering authors activists and texts linked to critical political and social theory in German French and Anglo American contexts The focus falls on the imagination variously conceived and notions of autonomy and how these ideals potentially confront specific conditions of political and social reality What emerges across the millennia is an episodic account of dialectical encounters between freedom and unfreedom how philosophical endeavors discern alternatives that raise consciousness of societal possibilities that challenge realities with the aim of changing practices of domination oppression and exploitation Rather than regard intellectual and literary labor as ideological reflections of the material base Hansen considers to what extent these free works of the imagination offer concrete visions that would increase justice communal harmony and global peace historical contingencies and limitations **The Artist's Quest of Inspiration**
