Disrupting the Digital Humanities Dorothy Kim, Jesse Stommel, 2018 All too often defining a discipline becomes more an exercise of exclusion than inclusion Disrupting the Digital Humanities seeks to rethink how we map disciplinary terrain by directly confronting the gatekeeping impulse of many other so called field defining collections What is most beautiful about the work of the Digital Humanities is exactly the fact that it can't be tidily anthologized In fact the desire to neatly define the Digital Humanities to filter the DH y from the DH is a way of excluding the radically diverse work that actually constitutes the field This collection then works to push and prod at the edges of the Digital Humanities to open the Digital Humanities rather than close it down Ultimately it's exactly the fringes the outliers that make the Digital Humanities both lovely and rigorous This collection does not constitute yet another reservoir for the new Digital Humanities canon Rather our aim is less about assembling content as it is about creating new conversations Building a truly communal space for the digital humanities requires that we all approach that space with a commitment to 1 creating open and non hierarchical dialogues 2 championing non traditional work that might not otherwise be recognized through conventional scholarly channels 3 amplifying marginalized voices 4 advocating for students and learners and 5 sharing generously to support the work of our peers

Benioff viele Worte wurden bereits über diese großen Unternehmer der Welt geschrieben. In diesem Buch geht es nicht darum ihre Leistungen zu beschreiben. Es geht auch nicht um ihr Charisma, ihre persönlichen Prägungen oder ihren Platz in der Populärkultur. Wir alle haben schon genug davon gehört oder gelesen. In diesem Buch geht es um den Unternehmer, den Denker. Es geht um die großen Ideen, die bahnbrechenden, disruptiven Gedanken, die innovativen Grundlagen und Geschäftsphilosophien, die zu ihren Erfolgen geführt haben. Danke für die Disruption untersucht 20 der bedeutendsten Wirtschaftsführer unserer Zeit. Der Autor Jean Marie Dru selbst ein Disruptor, der den Begriff vor Jahrzehnten geprägt hat, erklärt nicht nur die Auswirkungen dieser Führungskraft auf ihre eigenen Unternehmen, sondern auch ihren immensen Einfluss auf die gesamte Geschäftswelt. Jedes Kapitel ist vollgepackt mit detaillierten Analysen, aufschlussreichen Kommentaren und persönlichen Beobachtungen des Autors. Die disruptiven Ideen fallen in die Kategorien Führung, Innovation, soziale Verantwortung, Marke und Kultur. Für jedes dieser Themen erklärt der Autor 1. die wichtigsten innovativen Ideen, die dem Unternehmen Milliarden eingebracht haben, 2. wie ihre Innovationen und Ideen die Geschäftswelt im Allgemeinen beeinflusst haben und 3. wie auch andere Manager und Führungskräfte diese disruptiven Ideen in ihren eigenen Organisationen umsetzen können. Reimagining the Academic Library David W. Lewis, 2016-05-04 Academic libraries are in the midst of significant disruption. Academic librarians and university administrators know they need to change but are not sure how. Bits and pieces of what needs to happen are clear, but the whole picture is hard to grasp. *Reimagining the Academic Library* paints a simple, straightforward picture of the changes affecting academic libraries and what academic librarians need to do to respond to the changes. It would help to guide future library practice. The aim is to explain where academic libraries need to go and how to get there in a book that can be read in a weekend. David Lewis provides a readable survey of the current state of academic library practice and proposes where academic libraries need to go in the future to provide value to their campuses. His primary focus is on collections, as this is the area with the greatest opportunity for change and is the driver of most library cost. Lewis provides an accessible framework for thinking about how library practice needs to adjust in the digital environment. The book will be useful not only to academic librarians but also for librarians to share with presidents and provosts who are a concise source for understanding where and how to focus their expenditures on libraries. **Educational**

Ecologies John Dowd, 2016-04-27 This book elucidates how technology has impacted the discourse and practices of higher education. Dowd situates current educational movements centered on new technologies such as the Do It Yourself (DIY) movement within broader ideological concepts concerned with education, progress, technology and work. Knowledge of how the discourse and practices of higher education have been impacted enables teachers to create learning environments that

are conducive to the cultivation of ethically informed and engaged lives The Path to Perspective Neil David Martin, 2009

The Path to Perspective is nothing short of a manifesto for business in the new millennium a classic account of why challenging assumptions is the starting point for successful companies in the 21st Century In his first book Neil David Martin offers fresh and innovative thinking on the struggle to maximise performance in today's challenging business environment Experience is what you get when you don't get what you want Fix the roof while the sun shines Short statements make us think Reality is often very different from how we might first perceive it Neil's new book explains exactly why perspective is so important to business Sharpen your thinking tools with The Path to Perspective Richard Grace Serial Entrepreneur and former Senior Manager at Xerox Together with a compelling vision of what our organisations could be The Path to Perspective outlines a convincing case for people first values driven free thinking business which begins with rethinking your company's practices and priorities It is packed with over 40 powerful concepts and a step by step plan to help you translate the ideas in this book into meaningful practices for your business The author also offers us several important and eye opening insights including Why most companies still struggle to differentiate to attract and retain employees and customers to maximise productivity and to innovate successfully Why focusing on profit as the ultimate goal of your business is actually NOT the best way of maximising profits Why a focus on behaviours is NOT enough to bring about a shift in attitudes within your business **Signs of the Times** Brian A. Ross, 2016-03-18 All ministry leaders concern themselves with the intersection of Jesus centered ministry and contemporary culture They ask themselves questions such as What do we need to change in order to keep up with a wired world What should never change What are the nonnegotiables of faith in Jesus Many have attempted to answer these questions However most of these leaders offer solutions that the everyday ministry leader simply cannot replicate Signs of the Times is a unique offering to those who wrestle with the mash up of ministry and culture All of the contributors have found success within their ministries and yet most do not minister to thousands on a weekly basis Additionally all of them have had the privilege of studying directly with Dr Leonard I Sweet Despite having authored more than fifty books Sweet can still be a bit of an enigma Many of his readers have been deeply influenced by him and yet they may still struggle to understand what his insights might mean for their ministry Each of the contributors to this work thoughtfully engages with a key idea that they personally learned from Sweet and they translate it for ministry in the early twenty first century
