Studying English Literature in Context Paul Poplawski, 2022-10-13 Ranging from early medieval times to the present, this diverse collection explores the myriad ways in which literary texts are informed by their historical contexts. The thirty-one chapters draw on varied themes and perspectives to present stimulating new readings of both canonical and non-canonical texts and authors. Written in a lively and engaging style by an international team of experts, these specially commissioned essays collectively represent an incisive contribution to literary studies; they will appeal to scholars, teachers, and graduate and undergraduate students. The book is designed to complement Paul Poplawski's previous volume *English Literature in Context* and incorporates additional study elements designed specifically with undergraduates in mind. With an extensive chronology, a glossary of critical terms, and a study guide suggesting how students might learn from the essays in their own writing practices, this volume provides a rich and flexible resource for teaching and learning.

Writing Essays About Literature Katherine O. Acheson, 2010-12-20 This book gives students an answer to the question: What does my professor want from this essay? In lively, direct language, it explains the process of creating a clearly written argument based on evidence about the meaning, power, or structure of a literary work. Using a single poem by William Carlos Williams as the basis for the process of writing a paper about a piece of literature, it walks students through the processes of reading, brainstorming, researching secondary sources, gathering evidence, and composing and editing the paper. *Writing Essays About Literature* is designed to strengthen argumentation skills and deepen understanding of the relationships between the reader, the author, the text, and critical interpretations. Its lessons about clarity, precision, and the importance of providing evidence will have wide relevance for student writers.
