Tree Models Of Similarity And Association Quantitative Applications In The Social Sciences:

Tree Models of Similarity and Association James E. Corter, 1996 This book describes how matrices of similarities or associations among entities can be modelled using trees in order to explain some of the issues that arise in performing similarity relations analyses and interpreting the results correctly Proceedings of the Nineteenth Annual Conference of the Cognitive Science Society Michael G. Shafto, Pat Langley, 1997 This volume features the complete text of the material presented at the Nineteenth Annual Conference of the Cognitive Science Society Papers have been loosely grouped by topic and an author index is provided in the back As in previous years the symposium included an interesting mixture of papers on many topics from researchers with diverse backgrounds and different goals presenting a multifaceted view of cognitive science In hopes of facilitating searches of this work an electronic index on the Internet s World Wide Web is provided Titles authors and summaries of all the papers published here have been placed in an online database which may be freely searched by anyone You can reach the web site at www.csli.stanford.edu/cogsci97 **A Companion to Rock Art** Jo McDonald, Peter Veth, 2012-09-04 This unique guide provides an artistic and archaeological journey deep into human history exploring the petroglyphic and pictographic forms of rock art produced by the earliest humans to contemporary peoples around the world Summarizes the diversity of views on ancient rock art from leading international scholars Includes new discoveries and research illustrated with over 160 images including 30 color plates from major rock art sites around the world Examines key work of noted authorities e g Lewis Williams Conkey Whitley and Clottes and outlines new directions for rock art research Is broadly international in scope identifying rock art from North and South America Australia the Pacific Africa India Siberia and Europe Represents new approaches in the archaeological study of rock art exploring issues that include gender shamanism landscape identity indigeneity heritage and tourism as well as technological and methodological advances in rock art analyses **Complexity in Society: From Indicators Construction to their Synthesis** Filomena Maggino, 2017-07-27 This volume discusses the many recent significant developments and identifies important problems in the field of social indicators In the last ten years the methodology of multivariate analysis and synthetic indicators construction significantly developed In particular starting from the classical theory of composite indicators many interesting approaches have been developed to overcome the weaknesses of composites This volume focuses on these recent developments in synthesizing indicators and more generally in quantifying complex phenomena *Encyclopedia of Epidemiology* Sarah Boslaugh, 2008 Presents information from the field of epidemiology in a less technical more accessible format Covers major topics in epidemiology from risk ratios to case control studies to mediating and moderating variables and more Relevant topics from related fields such as biostatistics and health economics are also included **The SAGE Encyclopedia of Social Science Research Methods** Michael Lewis-Beck, Alan E Bryman, Tim Futing Liao, 2003-12-15 This defining work will be valuable to readers and researchers in social sciences and humanities at all academic levels As a

teaching resource it will be useful to instructors and students alike and will become a standard reference source Essential for general and academic collections CHOICE This Encyclopedia provides readers with authoritative essays on virtually all social science methods topics quantitative and qualitative by an international collection of experts Organized alphabetically the Encyclopedia of Social Science Research Methods covers research terms ranging from different methodological approaches to epistemological issues and specific statistical techniques Written to be accessible to general readers the Encyclopedia entries do not require advanced knowledge of mathematics or statistics to understand the purposes or basic principles of any of the methods To accomplish this goal there are two major types of entries definitions consisting of a paragraph or two to provide a quick explanation of a methodological term and topical treatments or essays that discuss the nature history applications and implications of using a certain method including suggested readings and references Readers are directed to related topics via cross referenced terms that appear in small capital letters By assembling entries of varied origins and serving different research purposes readers will be able to benefit from this immense source of methodological expertise in advancing their understanding of research With three volumes and more than 900 signed entries the Encyclopedia of Social Science Research Methods will be a critical addition to any social science library Propensity Score Methods and Applications Haiyan Bai,M. H. Clark,2018-11-20 A concise introductory text Propensity Score Methods and Applications describes propensity score methods PSM and how they are used to balance the distributions of observed covariates between treatment conditions as a means to reduce selection bias This new QASS title specifically focuses on the procedures of implementing PSM for research in social sciences instead of merely demonstrating the effectiveness of the method Using succinct and approachable language to introduce the basic concepts of PSM authors Haiyan Bai and M H Clark present basic concepts assumptions procedures available software packages and step by step examples for implementing PSM using real world data with exercises at the end of each chapter allowing readers to replicate examples on their own
