The Sociologically Examined Life Pieces Of The Conversation:

The Sociologically Examined Life Michael Schwalbe, 2001 This lively and concise supplemental text uses analyses of everyday conversations and experiences to inspire students to think sociologically about society and about themselves as social actors

The Sociologically Examined Life Michael Schwalbe, 2018 While the usual introductory sociology text emphasizes defining key concepts in the field the rigidity of this structure creates a need for a text that teaches real world application of these concepts The Sociologically Examined Life Pieces of the Conversation prides itself on being an anti text a tool that demonstrates how to recognize and utilize sociological thinking in the real world The conversational writing encourages discussion and debate over ideas that are provocative and personal and pushes students to think critically about what makes them feel the way they do The Sociologically Examined Life draws from examples that are culturally relevant to today's students and encourages students to apply sociological thinking to their everyday lives and to reflect on their own roles as active players in the social world

The Socially Just School John Smyth, Barry Down, Peter McInerney, 2014-07-08 This book explores schools and how they can function as social institutions that advance the interests and life chances of all young people especially those who are already the most marginalized and at an educational disadvantage Social justice is a key theme as the book examines the needs of youth the concept of school culture school community relations socially critical pedagogy curriculum and leadership and a socially critical approach to work The Socially Just School is based upon four decades of intensive writing and researching of young lives This work presents an alternative to the damaging school reform in which schools are made to serve the interests of the economy education systems the military corporate or national interests Readers will discover the hallmarks of socially just schools They educationally engage young people regardless of class race family or neighbourhood location and they engage them around their own educational aspirations They regard all young people as being morally entitled to a rewarding and satisfying experience of school not only those whose backgrounds happen to fit with the values of schools They treat young people as having strengths and being at promise rather than being

at risk and with deficits or as bundles of pathologies to be remedied or fixed They are active listeners to the lives and cultures of their students and communities and they construct learning experiences that are embedded in young lives This highly readable book will appeal to students and scholars in education and sociology as well as to teachers and school administrators with an interest in social justice Wealth, Whiteness, and the Matrix of Privilege Jessica Holden Sherwood, 2012-07-10 Exclusive social clubs are traditionally an important site for the consolidation of upper class power Wealth Whiteness and the Matrix of Privilege shows that while the particulars of admission have changed these clubs remain socially significant incubators Having interviewed typically inaccessible members of exclusive clubs in the Northeast Jessica Holden Sherwood reports and analyzes what they have to say about who is in who is out and why The members talk frankly about their exclusiveness based on money and style but they are quick to point out that ethnically based exclusion is a thing of the past Club members also address the status of their women members which is at times distinctly second class The talk of country club members is shown to draw on elements in popular discourse And even if it is not their intention as club members exclude and account for their exclusion they contribute to reproducing class race and gender inequalities

education and training it advocates the right of all young people to have a say in these broader public debates In pursuing this agenda it deliberately sets out to listen to what young people themselves have to say with a view to interrupting the way things are In other words the book seeks to identify and explain the dreams desires and aspirations of young people with a view to creating a new imaginary and socially just future
