The Successful Investor Today 14 Simple Truths You Must Know When You Invest:

The Successful Investor Today Larry E. Swedroe, 2024-06-04 What does it take to achieve superior performance and become a successful investor Rather than great stock pricing or market timing skills it is far better for you to understand how the markets work and how to make them work best for you Larry E Swedroe argues that the right strategy never changes no matter whether the bull is stampeding or the bear has emerged from hibernation The Successful Investor Today was written during one of the greatest bear markets of the post World War II era a bear market that was a result of the inevitable bursting of the technology led bubble of the late 1990s what Federal Reserve Chairman Alan Greenspan called irrational exuberance Although millions of investors unnecessarily incurred trillions of dollars in losses neither this bubble nor the ensuing devastating losses were anything new Despite all the horrible investment experiences that have been reported those investors who followed the fourteen simple truths outlined in this book including the building of globally diversified portfolios did not suffer the devastating losses experienced by many others The fourteen simple truths withstand the tests of logic and time in the way the stock market really works rather than the way Wall Street and the media would have you believe it works Since it is generally held that those who fail to plan plan to fail an investor must begin with an investment plan Your plan should be tailored to conform to your unique ability willingness and need to take risk In The Successful Investor Today you will learn how to build write implement and manage your investment plan over time This book will help you become a better and more informed investor and it will help you achieve your financial goals by gradually increasing your wealth Apart from offering an up to date winning strategy The Successful Investor Today presents an efficient and proven way to avoid the most common and costly mistakes investors continue to make

Mind, Money & Markets Dave Harder,Janice Dorn,2014-10 After losing much of his money when the South Sea Bubble burst in 1720 English physicist and mathematician Isaac Newton stated I can calculate the motion of heavenly bodies but not the madness of people Even though Isaac Newton was a brilliant man he did not realize that markets function in a way that is opposite to almost everything else we do For example if people are lining up around the block to purchase an iPad it is a sign that it is a good product If people are lining up around the block to buy a condominium it is a bad sign for real estate Markets do not always act in a rational or logical manner Mind Money Markets explains why they act the way they do It is critical for every person to understand this in order to make wise decisions ranging from buying a home to operating a business Expert advice is much less reliable than we expect it to be because no one can accurately predict the future on a consistent basis Gigantic losses like the 6 2 billion trading loss at JP Morgan in 2012 show that investors are not giving momentum following the trend the respect it deserves Mind Money Markets offers a momentum filter specifically a screening tool from which every individual and professional investor should benefit The book also provides a circuit breaker that enables investors to limit losses in case of an

unexpected event in financial markets Using powerful and poignant analogies from their life experiences including Dave Harder s twelve years as a Search and Rescue volunteer we provide readers with a simple discipline to preserve precious hard earned capital during severe downturns and to outperform benchmarks when markets are in an uptrend It is easier to know what to do than to actually do it Psychiatrist Dr Janice Dorn specializes in helping traders and investors deal with emotions and aspects of human nature that hinder them from making astute investment decisions for stocks bonds real estate currencies or commodities We have passed on many words of wisdom collected from market sages and great thinkers We also highlight some major misconceptions about investing and show the reader how to overcome them and prosper With a compelling mixture of fascinating stories and more than 100 colored charts and photographs this is truly a unique work about how human beings react to markets The book helps individual as well as professional investors to be efficient with their time and energy by teaching them to focus only on a few factors which have the most significant impact on financial markets The personalized strategies provided in these pages will enable readers to maximize gains minimize losses and have more time to spend on things that matter the most in their lives *Mutual Funds* John A.
