**Systems from Hell** David A. Rochefort, 2024-12-01 This book approaches contemporary fiction as a medium for policy advocacy one whose narrative devices both link it to and distinguish it from other forms of public discourse Using the framework of political agenda setting David A Rochefort analyzes the rhetorical function of problem definition played by literary works when they document and characterize social issues while sounding the call for systemic reform Focusing on a group of noteworthy realist novels by American authors over the past twenty years this study maintains that fictional narrative is a potentially influential instrument of empathic policy argument The book closes by examining the agenda setting dynamics through which a social problem novel can contribute to the process of policy change

*Eco-Theory and Annihilation* Evan Gottlieb, 2025-03-06 Eco theory and Annihilation is part of the Film Theory in Practice series which blends the explanation of a film theory with the interpretation of a film and provides discrete examples of how film theory can serve as the basis for textual analysis This book offers a concise introduction to eco theory in jargon free language and shows how this theory can be deployed to interpret Alex Garland s controversial film adaptation of Jeff VanderMeer s hit novel Annihilation Eco theory is one of the most exciting and timely offshoots of contemporary critical theory but it is too frequently treated as only a recent development Covering historical developments in nature philosophy geology and organic chemistry as well as contemporary critical methodologies like systems theory and new materialism Eco Theory and Annihilation introduces readers to the full extent of eco theory s lively variations as well as investigates the complications that arise when those variations are mediated by the generic expectations of filmic science fiction This book illuminates the deep history of eco theory maps its contemporary coordinates and demonstrates how it can shed light on Garland s provocative eco sci fi thriller

**Designing the Complex City** Elena Porqueddu, 2025-08-08 How can designers address the emergent self organizing nature of complex urban environments Designing the Complex City highlights how both an excess and a lack of design control might contrast the lively complexity of cities their adaptive and evolutionary capacity By using key concepts from systems thinking complexity sciences life sciences cognitive sciences and social sciences the book frames a systemic spatial design approach aimed at enhancing the potential of different spatial

design disciplines to navigate place specific emergent transformations without overdetermining their formal outcome A range of heterogeneous case studies developing at different scales show how embracing a design approach that is embodied open ended contextually responsive incremental and adaptive does not question the relevance of designers specific skills in shaping the physical structure of cities it may rather increase their potential to effectively intervene in complex adaptive cycles of urban decay and self regeneration Designing the Complex City provides insights for students researchers and academics in architecture interior design urban and landscape design planning theory and urban studies It is essential reading for all designers who seek to proactively and meaningfully intervene in spontaneous socio spatial dynamics
