The Story Of Abelard's Adversities Medieval Sources In Translation:

The Story of Abelard's Adversities Peter Abelard, Joseph Thomas Muckle, 1964 **The Story of Abelard's Adversities**
Petrus Abaelardus, Joseph Thomas Muckle, 1964 *The Story of Abelard's Adversities* J. T. Muckle, 1964 **The Story of**
Abelard's Adversities Pierre Abélard, 1954 **Early Christianity In Its Song and Verse** Robert J.

Glendinning, 2015-03-13 In the present work Professor Glendinning sets out to convey some idea of the richness of the Christian experience in the poetry hymn lyrics and other verse forms from Late Antiquity and the Middle Ages CE 300 1300 It is the period sometimes called the Age of Faith when the purpose of life was to prepare one's soul for eternity The author selects 60 representative Latin poems and creates parallel English texts accompanying them with explanatory notes and comment on cultural and historical background The notes include short samples of the original Latin texts All texts as well as reference materials in the discussion of the texts are meticulously documented For those wishing to explore the matter further as to religious social and cultural history as well as the music of the hymns a basic bibliography is included

Middle French proverbs, sentences, and proverbial phrases James Woodrow Hassell, 1982 **Abelard: Ethical**
Writings Peter Abelard, 1995-10-15 Abelard's major ethical writings Ethics or Know Yourself and Dialogue between a Philosopher a Jew and a Christian are presented here in a student edition including cross references explanatory notes a full table of references bibliography and index Historical Dictionary of Medieval Philosophy and Theology Stephen F. Brown, Juan Carlos Flores, 2018-08-10 This second edition concentrates on various philosophers and theologians from the medieval Arabian Jewish and Christian worlds It principally centers on authors such as Abumashar Saadia Gaon and Alcuin from the eighth century and follows the intellectual developments of the three traditions up to the fifteenth century Ibn Khaldun Hasdai Crescas and Marsilio Ficino The spiritual journeys presuppose earlier human sources such as the philosophy of Plato Aristotle Plotinus and Porphyry and various Stoic authors the revealed teachings of the Jewish Law the Koran and the Christian Bible The Fathers of the Church such as St Augustine and Gregory the Great provided examples of theology in their attempts to reconcile revealed truth and man's philosophical knowledge and deserve attention as pre medieval contributors to medieval intellectual life Avicenna and Averroes Maimonides and Gersonides St Thomas Aquinas and St Bonaventure stand out in the three traditions as special medieval contributors who deserve more attention This second edition of Historical Dictionary of Medieval Philosophy and Theology contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important persons events and concepts that shaped medieval philosophy and theology This book is an excellent resource for students researchers and anyone wanting to know more about medieval philosophy and theology Vengeance in Medieval Europe Daniel Lord Smail, Kelly Gibson, 2009-01-01 How did medieval society deal with private justice with grudges and with violent emotions This ground breaking reader collects for the first time a number of unpublished or difficult to find texts that address violence

and emotion in the Middle Ages The sources collected here illustrate the power and reach of the language of vengeance in medieval European society They span the early high and later middle ages and capture a range of perspectives including legal sources learned commentaries narratives and documents of practice Though social elites necessarily figure prominently in all medieval sources sources concerning relatively low status individuals and sources pertaining to women are included The sources range from saints lives that illustrate the idea of vengeance to later medieval court records concerning vengeful practices A secondary goal of the collection is to illustrate the prominence of mechanisms for peacemaking in medieval European society The introduction traces recent scholarly developments in the study of vengeance and discusses the significance of these concepts for medieval political and social history

Medieval Thought David Edward Luscombe, 1997 The Middle Ages span a period of well over a millennium from the emperor Constantine's Christian conversion in 312 to the early sixteenth century During this time there was remarkable continuity of thought but there were also many changes made in different philosophies various breaks revivals and rediscoveries David Luscombe's history of Medieval Thought steers a clear path through this long period beginning with three great influences on medieval philosophy Augustine Boethius and Pseudo Denis and focusing on Alcuin then Anselm Abelard Aquinas Ockham Duns Scotus and Eckhart amongst others from the twelfth to the fifteenth century Medieval philosophy is widely regarded as having a theological and religious orientation but more recently attention has been given to the early study of logic language and the philosophy of science This history therefore gives a fascinating insight into medieval views on aspects such as astronomy materialism perception and the nature of the soul as well as of God

The A to Z of Medieval Philosophy and Theology Stephen F. Brown, Juan Carlos Flores, 2010-03-23 The Middle Ages is often viewed as a period of low intellectual achievement The name itself refers to the time between the high philosophical and literary accomplishments of the Greco Roman world and the technological advances that were achieved and philosophical and theological alternatives that were formulated in the modern world that followed However having produced such great philosophers as Anselm Peter Abelard John Duns Scotus William of Ockham Peter Lombard and the towering Thomas Aquinas it hardly seems fair to label the medieval period as such Examining the influence of ancient Greek philosophy as well as of the Arabian and Hebrew scholars who transmitted it The A to Z of Medieval Philosophy and Theology presents the philosophy of the Christian West from the 9th to the early 17th century This is accomplished through a chronology an introduction appendixes a bibliography and hundreds of cross referenced dictionary entries on the philosophers concepts issues institutions and events making this an important reference for the study of the progression of human thought

The Moral Philosophy of Peter Abelard Paul L. Williams, 1980

The Medieval Theater of Cruelty Jody Enders, 2018-08-06 Why did medieval dramatists weave so many scenes of torture into their plays Exploring the cultural connections among rhetoric law drama literary creation and violence Jody Enders addresses an issue that has long troubled students of the Middle Ages Theories of rhetoric and law of the time reveal she points out that the ideology of

torture was a widely accepted means for exploiting such essential elements of the stage and stagecraft as dramatic verisimilitude pity fear and catharsis to fabricate truth Analyzing the consequences of torture for the history of aesthetics in general and of drama in particular Enders shows that if the violence embedded in the history of rhetoric is acknowledged we are better able to understand not only the enduring theater of cruelty identified by theorists from Isidore of Seville to Antonin Artaud but also the continuing modern devotion to the spectacle of pain **The Rise of the Medieval World 500-1300**

Jana K. Schulman, 2002-05-30 Beginning in 500 with the fusion of classical Christian and Germanic cultures and ending in 1300 with a Europe united by a desire for growth knowledge and change this volume provides basic information on the significant cultural figures of the Middle Ages It includes over 400 people whose contributions in literature religion philosophy education or politics influenced the development and culture of the Medieval world While focusing on Western European figures the book does not neglect those from Byzantium Baghdad and the Arab world who also contributed to the politics religion and culture of Western Europe Europe underwent fundamental changes during the Middle Ages It changed from a preliterate to a literate society Cities became a vital part of the economy culture and social structure The poor and serfs went to the cities The devout joined monastic orders Christianity spread throughout Europe while a man was born in Mecca who would change the shape of the religious map Islam spread throughout the Holy Land Christian piety led to the Crusades This book provides a convenient guide to those who helped shape these movements and counter movements during this era that would pave the way for the Renaissance **Castration and Culture in the Middle Ages** Larissa Tracy, 2013

Essays exploring medieval castration as reflected in archaeology law historical record and literary motifs Castration and castrati have always been facets of western culture from myth and legend to law and theology from eunuchs guarding harems to the seventeenth and eighteenth century castrati singers Metaphoric castration pervades a number of medieval literary genres particularly the Old French fabliaux exchanges of power predicated upon the exchange or absence of sexual desire signified by genitalia but the plain literal act of castration and its implications are often overlooked This collection explores this often taboo subject and its implications for cultural mores and custom in Western Europe seeking to demystify and demythologize castration Its subjects include archaeological studies of eunuchs historical accounts of castration in trials of combat the mutilation of political rivals in medieval Wales Anglo Saxon and Frisian legal and literary examples of castration as punishment castration as comedy in the Old French fabliaux the prohibition against genital mutilation in hagiography and early modern anxieties about punitive castration enacted on the Elizabethan stage The introduction reflects on these topics in the context of arguably the most well known victim of castration in the middle ages Abelard LARISSA TRACY is Associate Professor of Medieval Literature at Longwood University Contributors Larissa Tracy Kathryn Reusch Shaun Tougher Jack Collins Rolf H Bremmer Jr Jay Paul Gates Charlene M Eska Mary A Valante Anthony Adams Mary E Leech Jed Chandler Ellen Lorraine Friedrich Robert L A Clark Karin Sellberg Lena W nggren Canadian Books in Print

,2003 *The Olde Daunce* Robert R. Edwards, Stephen Spector, 1991-01-22 In this volume a variety of perspectives reevaluate the nature of friendship desire and the olde daunce of love in the Middle Ages Challenging earlier scholarly notions about medieval marriage this book suggests and explores the legitimacy of marital friendship affection and mutuality The authors explore the relationship of medieval love to companionship equality and power and relate medieval expressions of love to a number of issues including creativity reading and writing voyeurism chastity violence and even hate The book reconsiders the theological philosophical and legal background of medieval attitudes toward marriage analyzes expressions of love and desire in European vernacular literature and considers several implications of Chaucer's treatment of love marriage and sexuality

Lying and Perjury in Medieval Practical Thought Emily Corran, 2018-08-30 Thought about lying and perjury became increasingly practical from the end of the twelfth century in Western Europe At this time a distinctive way of thinking about deception and false oaths appeared in the schools of Paris and Bologna most notably in the *Summa de Sacramentis et Animae Consiliis* of Peter the Chanter This kind of thought was concerned with moral dilemmas and the application of moral rules in exceptional cases It was a tradition which continued in pastoral writings of the thirteenth century the practical moral questions addressed by theologians in universities in the second half of the thirteenth century and in the *Summae de Casibus Conscientiae* of the late Middle Ages *Lying and Perjury in Medieval Practical Thought* argues that medieval practical ethics of this sort can usefully be described as casuistry a term for the discipline of moral theology that became famous during the Counter Reformation This can be seen in the origins of the concept of equivocation an idea that was explored in medieval literature with varying degrees of moral ambiguity From the turn of the thirteenth century the concept was adopted by canon lawyers and theologians as a means of exploring questions about exceptional situations in ethics It has been assumed in the past that equivocation and the casuistry of lying was an academic discourse invented in the sixteenth century in order to evade moral obligations This study reveals that casuistry in the Middle Ages was developed in ecclesiastical thought as part of an effort to explain how to follow moral rules in ambiguous and perplexing cases

The Decameron and the Canterbury Tales Leonard Michael Koff, Brenda Deen Schildgen, 2000 That resistance informed by a model of literary influence grounded on the idea of interruption would keep the *Canterbury Tales* away from the *Decameron* though not the rest of Chaucer from other works by Boccaccio In the end of course that resistance tells us more about Chaucer's reception since the fifteenth century than about Chaucer himself or his sources
