This work focuses on the way in which practitioners within learning disability explore a range of therapeutic interventions that help to assist in our understandings of how people with a learning disability interpret their world, feelings, and extent of problems as they interact with people and the environment. *The Art of the Question* Marilee C. Goldberg, 1998. The Art of the Question extends the range of cognitive behavioral therapy by elaborating on the ways that internal questions program thought, emotion, and behavior. The term internal dialogue is routinely invoked to describe the thinking process, yet a dialogue involves statements and questions. Statements alone tell only half the story and allow only an incomplete understanding of the thinking process. Recognizing that questions drive thoughts, feelings, and actions brings unique and powerful therapeutic advantages to the fore, helping to crack the code on change.
