Feminism and the Abyss of Freedom Linda M. G. Zerilli, 2005-10-03 In contemporary feminist theory the problem of feminine subjectivity persistently appears and reappears as the site that grounds all discussion of feminism In *Feminism and the Abyss of Freedom* Linda M G Zerilli argues that the persistence of this subject centered frame severely limits feminists capacity to think imaginatively about the central problem of feminist theory and practice a politics concerned with freedom Offering both a discussion of feminism in its postmodern context and a critique of contemporary theory Zerilli here challenges feminists to move away from a theory based approach which focuses on securing or contesting women as an analytic category of feminism to one rooted in political action and judgment She revisits the democratic problem of exclusion from participation in common affairs and elaborates a freedom centered feminism as the political practice of beginning anew world building and judging In a series of case studies Zerilli draws on the political thought of Hannah Arendt to articulate a nonsovereign conception of political freedom and to explore a variety of feminist understandings of freedom in the twentieth century including ones proposed by Judith Butler Monique Wittig and the Milan Women s Bookstore Collective In so doing Zerilli hopes to retrieve what Arendt called feminism s lost treasure the original and radical claim to political freedom

Citizen Journalism as Conceptual Practice , Bolette B. Blaagaard, 2018-07-27 *Citizen Journalism as Conceptual Practice* provides a conceptualization of citizen journalism as a political practice developed through analyses of an historical and postcolonial case Arguing that citizen journalism is first and foremost situated embodied and political rather than networked and technology based the book offers a grounded analysis of the colonial newspaper *The Herald* published in St Croix Virgin Islands 1915-25 by a descendant of enslaved people and independently of the colonial ruler Denmark The analysis is informed by Deleuze and Guattari s approach to knowledge production and formulates a critical reading of citizens and subjects mediated political engagements then as well as now The book discusses current approaches to citizen journalism before turning to *The Herald* which is then read against the grain in an attempt to show the embodied politics of colonial history and cultural forms of citizen engagement as these politics evolve in this particular case of journalism Rethinking Community Research David Studdert, Valerie Walkerdine, 2016-08-24 This book sheds new light on the complex inter relations that make up class power local history and space It turns community thinking on its head by understanding community not as an object but as a relational process with sociality at its core Based on fieldwork from one market town and the work of Hannah Arendt it demonstrates how a new approach to social practices can illuminate our understanding of commonality and communal being Whilst community has become both a much derided and much touted term this thought

provoking work shows that it is at the heart of social process It will appeal to researchers of sociology social policy politics public health and geography as well as those involved in public policy design and implementation

The Meaning of Religious Freedom in the Public Square Pablo Munoz Iturrieta,2020-02-27 This book offers a new perspective on religious freedom Its central theme is to elucidate the meaning of religion and freedom in discussions related to religious freedom and the place of religion in the public square One often hears that either religion must be tamed by restricting its access to public power or that in the name of neutrality and equality no religious reasoning may be used in the political sphere as it may be coercive to other worldviews There is also the idea that religion is a feature of human life essentially distinct from secular features such as politics and economics and which has a peculiarly dangerous inclination to promote violence Thus the meaning of religious freedom in the twenty first century seems uncertain For that reason it is necessary to clarify the meaning of religious freedom especially in relation to the public sphere in order to offer an answer that will guide us in discerning issues of religious freedom

**The Aesthetics of Global Protest** Aidan McGarry,Itir Erhart,Hande Eslen-Ziya,Olu Jenzen,Umut Korkut,2025-10-01 Protestors across the world use aesthetics in order to communicate their ideas and ensure their voices are heard This book looks at protest aesthetics which we consider to be the visual and performative elements of protest such as images symbols graffiti art as well as the choreography of protest actions in public spaces Through the use of social media protestors have been able to create an alternative space for people to engage with politics that is more inclusive and participatory than traditional politics This volume focuses on the role of visual culture in a highly mediated environment and draws on case studies from Europe Thailand South Africa USA Argentina and the Middle East in order to demonstrate how protestors use aesthetics to communicate their demands and ideas It examines how digital media is harnessed by protestors and argues that all protest aesthetics are performative and communicative

**Camps Revisited** Irit Katz,Diana Martin,Claudio Minca,2018-11-23 Facing the current growing global archipelago of encampments this book project intends to develop a geographical reflection on the camp as a modern institution and as a spatial bio political technology This book focuses on past and present camp geographies and on the dispositifs that make them an ever present spatial formation in the management of unwanted populations characterizing

many authoritarian regimes as well as many contemporary democracies It also offers and investigates possible ways to resist the present day proliferating manifestations of camps and camp thinking by calling for the incorporation of camp studies into the broader field of political geography and to consider the geographies of the camp as constitutive of much broader modern geo political economies By linking spatial theory to the geopolitical and biopolitical workings and practices of contemporary camps the contributions in this collection argue that the camps seem to be here to stay like a permanent temporary presence giving shape to improvised semi structured and hyper orderly structured spatialities in our cities and our countryside Camps are also a specific response for example to the changing conditions of European borders due to the refugee crisis and the rise of nationalism in many countries affected by such crisis

Arendt's Judgment Jonathan Peter Schwartz, 2016-06-13 In Arendt's Judgment Freedom Responsibility Citizenship Jonathan Peter Schwartz claims that Arendt's theory of political judgment formed the core of her political thought and that understanding it correctly makes it possible to grasp the systematic thread that runs through her diverse body of work

**Action and Appearance** Anna Yeatman, Charles Barbour, Phillip Hansen, Magdalena Zolkos, 2011-04-21

**Conceptualising Community** D. Studdert, 2005-12-06

Community is the dark shadow of sociology an issue around which sociologists always duck and dive This book examines the reasons for this reticence through an exegesis of contemporary debates Additionally it utilizes the work of Hannah Arendt to propose an alternative anti mechanistic and anti essentialist approach to community and sociality an approach that not only moves beyond Foucault and his oppositional work but also offers perhaps the basis for a different approach to politics
