Tools And Techniques Of Leadership And Management Meeting The Challenge Of Complexity:

Tools and Techniques of Leadership and Management Ralph Stacey, 2012-06-25 Many of today's books on the tools and techniques of leadership and management provide descriptions of long lists for use in decision making leading coaching and project management This book takes a completely different approach It contests the claims that the tools and techniques are based on evidence and explains why human activities of leading and managing are simply not amenable to scientific proof and consequently why long term futures of organizations are unpredictable The book undertakes a critical exploration of just what these tools and techniques are about showing that while they may lead to competent performance they cannot go further to expert performance because expertise involves going beyond rules and procedures Ralph Stacey investigates the many questions that are thrown up as a result of this new approach Questions such as How do we apply this new way of thinking What are the practical tools and techniques it gives us What is the role of leaders in an unpredictable world How does complexity affect the way organizations are structured and function This book will be relevant to students on courses and modules that deal with leadership decision making and organizational development and behaviour as well as professional leaders and managers who want to develop their own understanding and techniques

Relational Change Liz Wiggins, Harriet Hunter, 2016-12-15 Learn about alternative ways of managing the change experience to make it doable energising and transformative The process of change in all organizations corporate public sector and not for profit can be fraught overwhelming and unpredictable both for those experiencing change and for those charged with its implementation Relational Change presents a refreshingly readable and accessible alternative to the normal rhetoric of mechanistic top down change Instead Liz Wiggins and Harriet Hunter show how paying closer attention to personal interactions and relationships lies at the very heart of effective and sustainable change in organizations Exploring issues of power politics emotions and the way people and systems can become stuck in unhelpful patterns this book will help you work practically with the messiness of change The dynamic new ways discussed are highly relevant for life in organizations today and will apply to your life outside work too Integrating research and theory from a wide range of sources as well sharing their own extensive experience of leading change the authors present a stimulating and thought provoking people centred and relational

approach that focuses on doing with others rather than doing to them Relational Change combines academically grounded theoretically robust thinking that explains the rationale for relational change with real world stories that will resonate with your own experience of change whether as a seasoned or novice leader Coaching Systemically Paul Lawrence,2021-03-17 This book provides an accessible and clear description of key theories of systemic coaching and how they can be applied to coaching practice Structured around five different ways of thinking about systems the book provides coaches with a high level overview of different systems theories and how those theories may be applied in practice Readers are invited to consider each of the five different ways of thinking through the lens of philosophy purpose and practice Which theories most resonate for you How do these systemic perspectives shape your purpose for coaching and how do they show up in the way that you coach With examples and case material throughout Coaching Systemically aligns coaching with the realities and challenges of organisations operating in an ever more complex world Readers will walk away from the book with a clearer understanding of what it means to coach systemically and new ideas as to how they can translate insights into practice Coaching Systemically will be key reading for coaches in practice and in training consultants and anyone interesting in systemic approaches ECMLG 2019 15th European Conference on Management, Leadership and Governance Professor
