

Parker Balston® Hydrogen Generators

Hydrogen generators are a safe, cost-effective alternative to high-pressure gas cylinders and can supply fuel-grade gas on ultra-high-purity carrier gas. Hydrogen generators offer enhanced safety and convenience and are very cost-effective. Based on cylinder gas savings alone, a hydrogen generator pays for itself in only 1 or 2 years. Parker Balston® hydrogen generators are engineered for safety and feature a built-in sensing circuit which shuts down the generator automatically if a hydrogen leak is detected. These generators are also designed for performance and convenience. They include an exclusive water management system and control circuitry to maintain optimum, and also feature indicator lighting, which offers at-a-glance status checks and water level monitoring.

Parker Balston® hydrogen generators are reliable and easy to use and maintain. The only water is all that is required to generate hydrogen for weeks of continuous operation. Each generator has an output capacity of up to 100 cc/min—enough to supply 99.9995% pure hydrogen for several PIDs. The new Proton Exchange Membrane (PEM) cell eliminates the need for liquid electrolytes. Maintenance requires only a few minutes a year—no inconvenient, extended downtimes. Simply change the filters every 6 months, the hydration pump biannually, and the desiccant cartridge whenever it turns from beige to clear.

These units are compact, requiring only one square foot of bench space, and come with a set of standard power adapters for U.S., European and Asian plug types. Provided and supported by an ISO 9001 registered organization, Parker Balston® hydrogen generators are the first built to meet the toughest laboratory standards in the world: CSA, UL, cUL, and CE Mark.

Hydrogen generator technology

- Reliably generate 99.9995% pure hydrogen for better chromatography.
- Cost-effective, convenient, and safe alternative to high-pressure gas cylinders.
- Proton Exchange Membrane (PEM) cell eliminates the need for liquid electrolytes.
- Quick and easy to service and maintain; unique display lighting changes color for easy status checks and water level indication.
