hard to find report *Managing Microsoft's Remote Installation Services* Soren Rasmussen, Michael Iversen, 2011-04-08

BRIEF DESCRIPTION OF CONTENT The authors have been working with Remote Installation Services since its birth in 1999. We are really enthusiastic about working with it. From their experiences from very different customers with very different requirements to their Windows infrastructure environment, they have gained a tremendous deal of experience and in-depth knowledge with Remote Installation Services that other people can benefit from. This includes basic understanding a lot of theory and best practices but also how you can stretch Remote Installation Services to really do what any system or network administrator would require. This information is essential for anyone wishing to implement Remote Installation Services and use the advanced features and tools it contains. There is much more than up grades adding and deleting programs from a central administrator that can be done. In addition, it can save the cost adding a costly third party software package like Alteris to the enterprise network. This is the reason that the authors are now gathering all the experience and knowledge and focusing on forming a single point of entry to everything you must know about Remote Installation Services in form of a book. Note based on my TRS and reviewers comments the book will be over 320 pages as authors add numerous consulting client examples and illustrations.

UNIQUE FEATURE Book is excellent companion to Windows and Exchange series and WMI books by Lissour. Authors are top quality IBM Consultants. Gives Network and Systems Administrators real tools to manage up grades program modifications and system and security related tools. Presents a balance of theory and methods with best practices the authors have developed in their consulting work. Shows how an enterprise can save the cost adding a costly third party software package like Alteris to the enterprise network.

Network Analysis Using Wireshark 2 Cookbook
Nagendra Kumar, Yogesh Ramdoss, Yoram Orzach, 2018-03-30
