Vermeer Norbert Schneider,1999-06-01      **Vermeer, 1632-1675** Norbert Schneider,Johannes Vermeer,2000 Vermeer's record of the tasks and duties of women The 35 paintings that have come down to us from the hand of Jan Vermeer 1632-1675 place him beside Rembrandt and Frans Hals as one of the great masters of the golden age of Dutch art Most of his pictures all of which are reproduced in this book show women about their daily business Vermeer records the tasks and duties of women the imperatives of virtue under which their lives were lived and the dreams that provided the substance of their contrasting counter world About the Series Each book in TASCHEN's Basic Art series features a detailed chronological summary of the life and oeuvre of the artist covering his or her cultural and historical importance a concise biography approximately 100 illustrations with explanatory captions      *Restorative Christ* Geoff Broughton,2015-02-26 Erik Erikson best known for his life cycle theory and concept of the identity crisis proposed that we are comprised of a number of selves In several earlier books including *At Home in the World* Donald Capps has suggested that the emotional separation of young children especially boys from their mothers results in the development of a melancholy self In this book Capps employs Erikson's assignment of an inherent strength to each stage of the life cycle and proposes that the life enhancing strengths of the childhood years hope will purpose and competence are central to the development of a resourceful self and that this self counters the life diminishing qualities of the melancholy self Focusing on Erikson's own writings Capps identifies the four primordial resources that Erikson associates with childhood humor play dreams and hope and shows how these resources assist children in confronting life's difficulties and challenges Capps further suggests that the resourceful self that develops in childhood is central to Jesus' own vision of what we as adults may become if we follow the lead of little children

**Vermeer's Family Secrets** Benjamin Binstock,2013-03-07 Johannes Vermeer one of the greatest Dutch painters and for some the single greatest painter of all produced a remarkably small corpus of work In *Vermeer's Family Secrets* Benjamin Binstock revolutionizes how we think about Vermeer's work and life Vermeer The Sphinx of Delft is famously a mystery in art despite the common claim that little is known of his biography there is actually an abundance of fascinating information about Vermeer's life that Binstock brings to bear on Vermeer's art for the first time he also offers new interpretations of several key documents pertaining to Vermeer that have been misunderstood Lavishly illustrated with more than 180 black and white images and more than sixty color plates the book also includes a remarkable color two page spread that presents the entirety of Vermeer's oeuvre arranged in chronological order in 1/20 scale demonstrating his gradual formal and conceptual development No book on Vermeer has ever done this kind of visual comparison of his complete output Like Poe's purloined letter Vermeer's secrets are sometimes out in the open where everyone can see them Benjamin Binstock shows us where to look Piecing together evidence the tools of art history and his own intuitive skills he gives us for the first time a history of Vermeer's work in light of Vermeer's life On almost every page of *Vermeer's Family Secrets* there is a perception

or an adjustment that rethinks what we know about Vermeer his oeuvre Dutch painting and Western Art Perhaps the most arresting revelation of Vermeer's Family Secrets is the final one in response to inconsistencies in technique materials and artistic level Binstock posits that several of the paintings accepted as canonical works by Vermeer are in fact not by Vermeer at all but by his eldest daughter Maria How he argues this is one of the book's many pleasures

**Traces of Vermeer** Jane Jelley, 2017 The iconic paintings of the 17th century Dutch artist Johannes Vermeer have been the source of admiration and controversy ever since they were rediscovered in the 19th century Amazingly there is still no agreement amongst experts as to how they were produced

*Vermeer and the Invention of Seeing* Bryan Jay Wolf, 2001-12 The result is a Vermeer we have not seen before a painter whose serene spaces and calm subjects incorporate within themselves however obliquely the world's troubles Vermeer abandons what his predecessors had labored so carefully to achieve legible spaces a world of moral clarity defined by the pressure of a hand against a table or the scatter of light across a bare wall Instead Vermeer complicated Dutch domestic art and invented what has puzzled and captivated his admirers ever since the odd daubs of white pigment dancing across the plane of the canvas patches of blurred surface contradicting the painting's illusionism without explanation and the querulous silence that endows his women with secrets they dare not reveal

*Masterpieces of Western Art* Robert Suckale, 2002 This volume traces the history of painting from medieval times to modern times with a focus on each era and its major artists This volume traces the history of painting from medieval times to modern times with a focus on each era and its major artists

Herrstrom,2022-11-21 In [Light as Experience and Imagination from Medieval to Modern Times](#) David S Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times The true subject of the book is making sense of the individual's relationship with light rather than the investigation of light's essential nature while telling the story of light seducing individuals from the Middle Ages to our modern times Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions as reflected in art architecture and literature Instead of

its evolution this book celebrates the complexity of our relation to light's character. No individual experience of light being truer than any other.

**Art in Contemporary Anglo-American Fiction** Sofie Behluli, 2025-05-30

This book addresses the recent surge of Anglo American novels about visual art since the 2010s and interprets it as a coming of age of an old literary sub genre which is here termed as the ekphrastic novel. These novels are distinguished by their systematic use of ekphrasis which creatively and critically negotiates the intertwined aesthetics of literature and visual art. By addressing the challenge of representing visual images such as photographs, paintings and art installations with words, these novels reveal a greater interest in exploring how and why we engage with art rather than merely depicting the art itself. In this way, ekphrastic novels present themselves as powerful practitioners and critics of contemporary image making. The book focuses on four aspects emerging from ekphrastic passages: value, form, affect and scale, to explore critical questions posed by contemporary ekphrastic novels: Who has the power to assign value today and at what cost? Which social, political, historical, cultural and ethical dimensions are obscured by certain forms and how can ekphrasis re-introduce these aspects into public discourse? What affects do images and artworks elicit and how do they reinforce or challenge existing value systems? How can narrative scale uncover potential injustices in the interplay between life and art? Moreover, what insights do ekphrastic novels offer into contemporary reading habits and strategies? By tracing a literary tradition from nineteenth century to contemporary fiction and offering detailed close readings of several critically acclaimed and widely read contemporary novels, this book delves into the theoretical and practical intersections of ekphrasis and the novel.
