Lebanese Civil War Through its Songs Walid Hedari, 2025-09-26 The Lebanese Civil War 1975 1990 profoundly influenced the region s social and cultural landscape including its musical expression Yet the role of songs in reflecting the military conflict as well as the geopolitical tensions and aspirations it generated remains largely underexplored Analyzing song lyrics offers an alternative lens through which to understand the conflict one that goes beyond traditional historical narratives While history books often recount events through the lens of military operations political developments or diplomatic maneuvers this research takes a different approach I seek to understand history through the lyrics of songs examined in tandem with the biographies and lived experiences of the artists who created them What socio political insights can these songs reveal

Harb,2011-03-30 The South Lebanon conflict saw two decades of sustained resistance by the Lebanese to the Israeli occupation The Lebanese media s role in achieving liberation over this period is significant through campaigns conducted to unify the Lebanese people against their foreign occupier and in support of the Lebanese resistance in South Lebanon This book investigates the culture and performance of Lebanese journalism in this setting It is a story about journalism told by a journalist who is also using tools of scholarship and research to narrate her story and the story of her fellow journalists Zahera Harb is also presenting here an alternative interpretation of propaganda under conditions of foreign occupation and the struggle against that occupation She identifies the characteristics of liberation propaganda through the coverage and experience of the two Lebanese TV stations Tele Liban and Al Manar within the historical cultural organisational and religious contexts in which they operated and how these elements shaped their professional practice and their news values

The war in Lebanon was the result of several highly connected internal and external conditions that have been in the making for a long time Causal forces rooted in the existing social and political structures of the country while contributing forces aggravated the internal conflicts and set the process of confrontation into motion triggered a set of events already in the making that awaited only the proper time and place Regarding this quoted statement the purpose of our paper is to show the reasons that led to the Civil War in Lebanon from 1975 till 1990 Usually four causes can be found throughout the literature we used for this paper the social context within Lebanon itself namely the unbalanced sectarian or confessional system and socioeconomic problems namely the United States Israel and Syria This paper mainly deals with the causes expressed above We do not want to describe the war itself in all its details or provide a historical chronology instead discussion of the war will be restricted to the description of landmark events However the named causes worked together in waging the Civil War One cannot separate them from one another Mutual interactions took place between them leading to bloodshed and hatred The Lebanese people needed almost five decades to settle down these causes from which almost all were already present since the independence in 1943 The first attempt to resolve some of the problems with the National Pact of 1943 did not last long before the second Civil War broke out in 1958 The latest peace agreement the Taif Accord from 1990 reviewed most of the causes trying to adopt political measures to prevent another outbreak of violence Still the accord did not get rid of the sectarian problem so far This paper will not deal with these events in great details References will be made according to their importance for the topic In this regard we try to answer not only the questions of the causes but also how they interrelated and how they contributed to the escalation of the situation in Lebanon Our paper describes first the social context starting with the unbalanced confessional system followed by the socioeconomic problems Afterwards we want to write down how the Palestine issue contributed to the Civil war and how the external actors USA Syria and Israel caused more and more troubles which led to the extent of the conflict

Book Publishing Record ,1985 Cursed is the Peacemaker John Boykin,2002 This book is the behind closed doors tale of how American diplomat Philip Habib worked out a peaceful end to the 1982 Israeli siege of Beirut Only now can this remarkable story be told For a generation it has remained secret locked away in the classified records and in the participants memories To piece it together John Boykin dug through thousands of pages of documents that he got declassified and conducted over 150 hours of interviews Israeli defense minister Ariel Sharon intended his invasion of Lebanon to be the masterstroke that would bring peace to the Middle East for decades Instead it defeated its own purposes soiled Israel s reputation and came to be widely considered Israel s Vietnam This is a story of conflict between allies on the national scale between the US and Israel during some of the darkest days of their relations on the personal scale between Philip Habib and Ariel Sharon But at heart it is the story of an extraordinary man wrestling with an extraordinary crisis His story has never before been told Book jacket
