The Web: Gulliverzone Stephen Baxter, 2005-05 Two children travel to a virtual reality theme park called GulliverZone where they cross paths with a cyber sorceress Gulliverzone Stephen Baxter, 1997 2027 World Peace Day and three children enter Gulliverzone where they are caught up in a desperate battle for survival between the Lilliputians and the Struldbugs Web Stephen Baxter, 2005-05-01 On World Peace Day in 2027 Sarah and her little brother George get to enter GulliverZone the best virtual reality theme park in the Web but a mysterious being known as the Sorceress seeks to use the Web for her own purposes **The Science of Avatar** Stephen Baxter, 2012-05-29 Audiences around the world have been enchanted by James Cameron's visionary Avatar with its glimpse of the Na'vi on the marvelous world of Pandora. But the movie is not entirely a fantasy; there is a scientific rationale for much of what we saw on the screen from the possibility of travel to other worlds to the life forms seen on screen and the ecological and cybernetic concepts that underpin the neural networks in which the Na'vi and their sacred trees are joined as well as to the mind linking to the avatars themselves. From popular science journalist and acclaimed science fiction author Stephen Baxter, *The Science of Avatar* is a guide to the rigorous fact behind the fiction. It will enhance the reader's enjoyment of the movie experience by drawing them further into its imagined world Galaxias Stephen Baxter, 2021-10-21 What would happen to the world if the sun went out? New epic sci-fi from Stephen Baxter, the award-winning author whose credits include co-authorship of the Long Earth series with Terry Pratchett. By the middle of the 21st century, humanity has managed to overcome a series of catastrophic events and maintain some sense of stability. Space exploration has begun again. Science has led the way. But then one day the sun goes out. Solar panels are useless and the world begins to freeze. Earth begins to fall out of its orbit. The end is nigh. Someone has sent us a sign World Engines: Destroyer Stephen Baxter, 2019-09-19 A hard SF cli-fi saga set against the background of the birth of the solar system. Filled to the brim with big ideas and breathtaking worldbuilding. In the year 2570, a sleeper will wake. In the mid-21st century, the Kernel, a strange object on a five-hundred-year orbit, is detected coming from high above the plane of the solar system. Could it be an alien artefact? In the middle of climate change crises, there is no mood for space exploration stunts, but Reid Malenfant, elderly, once a shuttle pilot and frustrated, would-be asteroid miner, decides to go take a look anyway. Nothing more is heard of him. But his ex-wife Emma Stoney sets up a trust fund to search for him the next time the Kernel returns. By 2570, Earth is transformed. A mere billion people are supported by advanced technology on a world that is almost indistinguishable from the natural, with recovered forests, oceans, ice caps. It is not an age for expansion; there are only small science bases beyond the Earth. But this is a world you would want to live in. A Star Trek without the stars. After 500 years, the Kernel returns, and a descendant of Stoney, whom Malenfant will call Emma II, mounts a mission to see what became of Malenfant. She finds him still alive, cryo-preserved. His culture shock encounter with a conservative future is entertaining. But the Kernel itself turns out to be attached to a kind of wormhole through which Malenfant and Emma II are exploring further.

Hearthspace Stephen Baxter, 2025-09-25 Thousands of years ago a massive colony ship arrived at the Hearth the celestial birthplace of millions of planets ranging from habitable earth like worlds to unimaginable hellscapes of pressure and heat Using lightsails to navigate humanity has spread itself across dozens of these worlds But they have also forgotten their beginnings where they came from and a terrible secret is about to be unveiled For Commander Ulla Breen on her first tour of duty aboard a patrol sail ship the universe is about to change around her Attacked by an unknown and unthought of enemy she and her fellow crewmembers will face slavery punishment and death and so will their home planets Because someone else has seen the richness of the inner Hearth and plans to take it for themselves A new enemy but one who seems disturbingly familiar And perhaps knows more about the history of the Hearth than even Ulla and her crew Faced with a complete upheaval of all she thought she knew Ulla must survive long enough to come up with a plan one which will unite all the disparate elements of the Hearth and perhaps discover the reason why humanity came to Hearthsace in the first place

World Engines: Creator Stephen Baxter, 2020-08-20 Trapped on an alternate Earth the combined crews of a crashed Russian spaceship a British expeditionary force and a group of strays from the future must work together to survive escape and discover what led them to this point All are from parallel universes where small changes in history led to different realities and the tensions between the groups are rising But some changes were not small The solar system has been altered changed shaped in the various realities and the World Engineers unspeakably powerful completely unknown are still active Why have they populated this planet with humanity s ancestors and dinosaurs What is on the moon of Saturn that gives off such an odd light And even if they can be found can they be stopped and should they be Malenfant Deidra and the rest of their party must find a way off the planet back into space and into the many dimensions seeking the answer Xeelee: Endurance Stephen Baxter, 2015-09-17 Return to the eon spanning and universe crossing conflict between humanity and the unknowable alien Xeelee in this selection of uncollected and unpublished stories newly edited and placed in chronological reading order From tales charting the earliest days of man s adventure to the stars to stories of Old Earth four billion years

erased And in order to do that a lone Xeelee was sent back in time to remove Michael Poole from history Constructing Adolescence in Fantastic Realism Alison Waller,2010-12-22 Constructing Adolescence in Fantastic Realism examines those fundamental themes which inform our understanding of the teenager themes that emerge in both literary and cultural contexts Models of adolescence do not arise solely from discourses of psychology sociology and education Rather these models frameworks including developmentalism identity formation social agency and subjectivity in cultural space can also be found represented symbolically in fantastic tropes such as metamorphosis time slip hauntings doppelgangers invisibility magic gifts and witchcraft These are the incredible supernatural and magical elements that invade the everyday and diurnal world of fantastic realism In this original study Alison Waller proposes a new critical term to categorize a popular and established genre in literature for teenagers young adult fantastic realism Though fantastic realism plays a crucial part in the short history of young adult literature up until now this genre has typically been overlooked or subsumed into the wider class of fantasy Touching on well known authors including Robert Cormier Melvin Burgess Gillian Cross Margaret Mahy K M Peyton and Robert Westall as well as previously unexamined writers Waller explores the themes and ideological perspectives embedded in fantastic realist novels in order to ask whether parallel realities and fantastic identities produce forms of adolescence that are dynamic and subversive One of the first studies to deal with late twentieth century fantastic literature for young adults this book makes a valuable contribution to our understanding of adult attitudes toward adolescent identity
