The Whole Death Catalog A Lively Guide To The Bitter End:

The Whole Death Catalog Harold Schechter, 2009-06-02 In the tradition of Mary Roach's bestselling *Stiff* and Jessica Mitford's classic exposé *The American Way of Death* comes this meticulously researched refreshingly irreverent and lavishly illustrated look at death from acclaimed author Harold Schechter. With his trademark fearlessness and bracing sense of humor, Schechter digs deep into a wealth of sources to unearth a treasure trove of surprising facts, amusing anecdotes, practical information, and timeless wisdom about that undiscovered country to which we will all one day travel. Topics include: Death anxiety is your fear of death, normal or off the scale. You can't take it with you or can you? Wacky wills and bizarre bequests. The hospice experience. Going out in comfort and style. Deathbed and funeral etiquette: how to help the dying and mourn the dead with dignity. Death on demand: why the right to die movement may be the next big thing. Goodbye everybody: famous last words. The embalmer's art: all dressed up and nowhere to go. Behind the scenes at your local funeral home. Alternative burial choices: from coral reefs to outer space. From the cold, hard facts of death to lessons in the art of dying well: from what happens in the body's last living moments to what transpires in the ground or in the furnace from near-death experiences to speculation on the afterlife. *The Whole Death Catalog* leaves no gravestone unturned. [The A-Z of Death and Dying](#) Michael John Brennan, 2014-02-17 This engaging and informative resource provides readers with an understanding of the social, cultural, and historical influences that shape our encounters with death, dying, and bereavement: a universal experience across humanity. Written in an engaging and accessible style by leading international scholars and practitioners from within the field of death and bereavement studies, this book will have broad appeal, providing in a single volume insights from some of the key thinkers within the interdisciplinary field of death, dying, and bereavement. Its approximately 200 entries will serve as useful starting points for those new to the topic and will be informative to those already acquainted with some of the core concepts and ideas within this burgeoning field of inquiry. This encyclopedia will serve as an essential resource for high school and undergraduate students, those engaged in independent research, and professionals whose work involves caring for the dead, dying, and bereaved. It will also be of great interest to general readers intrigued by the social, medical, and cultural dimensions to human mortality. Underscored by the inescapable biological certainties that affect us all, *The A-Z of Death and Dying* offers a highly relevant examination of the social and historical variation in the rituals, practices, and beliefs surrounding the end of life. *Death and Dying* Diane Andrews Henningfeld, 2010-07-16 This book offers a collection of twenty-three essays that examines viewpoints on death and dying from around the world. Causes of death are examined, including increases in mortality due to AIDS in Africa, drug abuse in Scotland, and suicide in Ireland. Chapters discuss access to palliative end-of-life care and assisted suicide. Readers will evaluate the influences of the world's major religions and their beliefs, traditions, and rituals surrounding death. They will also learn about funeral practices throughout the world. Essay sources include Open Society Institute, A.P. Online, New Vision, Hiroko Nakata, Francesca Crippa, Floriani, JoAnne M. Youngblut.

Lampros, 2024-03-26 A spirited look at how funeral homes impacted American consumerism the built environment and national identities Funeral homes those grand aging mansions repurposed into spaces for embalming merchandising funeral services and housing for the funeral director and their family are immediately recognizable features of the American landscape and yet the history of how these spaces emerged remains largely untold In Preserved Dean Lampros uses the history of this uniquely American architectural icon to explore the twentieth century's expanding consumer landscape and reveal how buildings can help construct identities Across the United States Lampros traces the funeral industry's early twentieth century exodus from gloomy downtown undertaking parlors to outmoded Victorian houses in residential districts As savvy retailers and accidental preservationists funeral directors refashioned the interiors into sumptuous retail settings that stimulated consumer demand for luxury burial goods These spaces allowed for more privacy and more parking and they helped turn Americans away from traditional home

funerals toward funeral homes instead Moreover by moving into neighborhoods that were once the domain of white elites African American funeral directors uplifted their industry and altered the landscape of white supremacy The funeral home has tracked major changes in American culture including an increased reliance on the automobile and the rise of consumer culture Preserved offers an in depth cultural history of a space that is both instantly familiar and largely misunderstood
