Transient Spaces Marina Sorbello, 2010 Borderities and the Politics of Contemporary Mobile Borders A.

Amilhat-Szary, F. Giraut, 2015-06-08 This book explores the emerging forms and functions of contemporary mobile borders It deals with issues of security technology migration and cooperation while addressing the epistemological and political questions that they raise The borderities approach illuminates the question of how borders can be the site of both power and counter power **Borderscaping: Imaginations and Practices of Border Making** Dr Chiara Brambilla, Dr Jussi

Laine, Professor Gianluca Bocchi, Professor James W. Scott, 2015-12-28 Using the borderscapes concept this book offers an approach to border studies that expresses the multilevel complexity of borders from the geopolitical to social practice and cultural production at and across the border Accordingly it encourages a productive understanding of the processual de territorialized and dispersed nature of borders and their ensuring regimes in the era of globalization and transnational flows as well as showcasing border research as an interdisciplinary field with its own academic standing Contemporary bordering processes and practices are examined through the borderscapes lens to uncover important connections between borders as a challenge to national and EU policies and borders as potential elements of political innovation through conceptual re framings of social political economic and cultural spaces The authors offer a nuanced and critical re reading and understanding of the border not as an entity to be taken for granted but as a place of investigation and as a resource in terms of the construction of novel geo political imaginations social and spatial imaginaries and cultural images In so doing they suggest that rethinking borders means deconstructing the interweaving between political practices of inclusion exclusion and the images created to support and communicate them on the cultural level by Western territorialist modernity The result is a book that proposes a wandering through a constellation of bordering policies discourses practices and images to open new possibilities for thinking mapping acting and living borders under contemporary globalization **Crossing Borders,**

Dissolving Boundaries Hein Viljoen, 2013 Borders separate but also connect self and other and literary texts not only enact these bordering processes but form part of such processes This book gestures towards a borderless world stepping as it were with thousand mile boots from south to north even across the Atlantic from South Africa to Scandinavia It also shows how literary texts model and remodel borders and bordering processes in rich and meaningful local contexts The essays assembled here analyse the crossing and negotiation of borders and boundaries in works by Nadine Gordimer Ingrid Winterbach Deneyse Reitz Janet Suzman Marlene van Niekerk A S Byatt Thomas Harris Frank A Jenssen Eben Venter Antjie Krog and others under different signs or conceptual points of attraction These signs include a spiritual turn eventfulness self understanding ethnic and linguistic mobilization performative chronotopes the grotesque the carceral the rhetorical and the interstitial Contributors Ileana Dimitriu Heilna du Plooy John Gouws Anne Heith Lida Kr ger Susan Meyer Ad le Nel Ellen Rees Johan Schimanski Tony Ulliyatt Phil van Schalkwyk Hein Viljoen Borderscaping: Imaginations and Practices of

Border Aesthetics Johan Schimanski, Stephen F. Wolfe, 2017-04-01 Few concepts are as central to understanding the modern world as borders and the now thriving field of border studies has already produced a substantial literature analyzing their legal ideological geographical and historical aspects Such studies have hardly exhausted the subject's conceptual fertility however as this pioneering collection on the aesthetics of borders demonstrates Organized around six key ideas ecology imaginary in visibility palimpsest sovereignty and waiting the interlocking essays collected here provide theoretical starting points for an aesthetic understanding of borders developed in detail through interdisciplinary analyses of literature audio visual borderscapes historical and contemporary ecologies political culture and migration

Cities in Time Ali Madanipour, 2017-02-23 From street markets and pop up shops to art installations and Olympic parks the temporary use of urban space is a growing international trend in architecture and urban design Partly a response to economic and ecological crisis it also claims to offer a critique of the status quo and an innovative way forward for the urban future *Cities in Time* aims to explore and understand the phenomenon offering a first critical and theoretical evaluation of temporary urbanism and its implications for the present and future of our cities The book argues that temporary urbanism needs to be understood within the broader context of how different concepts of time are embedded in the city In any urban place multiple discordant and diverse timeframes are at play and the chapters here explore these different conceptions of temporality their causes and their effects Themes explored include how institutionalised time regulates everyday urban life how technological and economic changes have accelerated the city's rhythms our existential and personal senses of time concepts of memory and identity virtual spaces ephemerality and permanence
