Needle, Lenore Walker, EdD, 2008 The majority of women who have had abortions report feeling happy satisfied and relieved following their abortion Some few women who have had an abortion may experience some feelings of guilt and sadness however this rarely lasts longer than a few days Those very few women who present with prolonged feelings of sadness and mental health problems are women who have either had these problems prior to their abortion had other risk factors or were influenced by frightening demonstrations and

inaccurate biased information provided prior to the abortion Through this book the authors hope to train general therapists and counselors in pre and post abortion counseling techniques to avoid women experiencing unnecessary psychological problems created by those who insist that the non existent post abortion syndrome exists Abortion counseling has a critical role to play in ensuring women s mental health is the priority and not the goals of a political agenda Thus Needle and Walker have taken on a complex profound and essential task equipping therapists and abortion counselors with the knowledge and skills needed to help their clients and they have done it well Readers of this book should gain an increased understanding of how women s diverse life circumstances affect their ability to cope with the difficult decisions and circumstances surrounding abortion They will also be better able to build women s resilience and coping skills by having considered them both in the context of women s lives e g coping resources social support partner violence incidence of depression and in the context of socio political agendas that seek to manipulate women s mental health in order to undermine women s reproductive rights In the final analysis it is important to remember that abortion counseling is not about abortion it is about women confronting the decision to bear a child with all of the profound and life changing commitments and responsibilities that entails From the Foreword by Nancy Felipe Russo PhD Regents Professor of Psychology Arizona State University **Evaluating Juveniles'**
