Travellers Gypsies Roma The Demonisation Of Difference:

Travellers, Gypsies, Roma Jean Ryan Hakizimana, 2009-10-02 This volume hopes to act as a catalyst for some new and exciting areas of enquiry in the more liminal interstices of Irish Studies Traveller Studies Romani Studies and Diaspora and Migration Studies These disciplines are all relatively new areas of enquiry in modern Ireland a country whose society has witnessed very rapid and wide ranging cultural and demographic change within the short space of a decade The issue of multiculturalism is not one which is particularly new to Irish society as a number of contributors to this volume point out What is new however is an increased acknowledgement of diversity and multiculturalism in Ireland and Europe as a whole Such an acknowledgement makes increased dialogue between mainstream society older minorities such as the Irish Travellers and the many newer immigrant communities such as the Roma all the more necessary For such constructive dialogue to take place it is vital that migratory peoples and their particular expressions of postcolonial identity be voiced and valued These identities are both complex and diverse and frequently straddle a number of countries and national identities It is hoped that this volume will go some way towards the cultivation of such dialogue

Romani Writing Paola Toninato,2013-12-17 The Roma commonly known as Gypsies have largely been depicted in writings and in popular culture as an illiterate group However as Romani Writing shows the Roma have a deep understanding of literacy and its implications and use writing for a range of different purposes While some Romani writers adopt an oral use of the written medium which aims at opposing and deconstructing anti Gypsy stereotypes other Romani authors use writing for purposes of identity building Writing is for Romani activists and intellectuals a key factor in establishing a shared identity and introducing a common language that transcends linguistic and geographical boundaries between different Romani groups Romani authors acting in between different cultures and communication systems regard writing as an act of cultural mediation through which they are able to rewrite Gypsy images and negotiate their identity while retaining their ethnic specificity Indeed Romani Writing demonstrates how Romani authors have started to create self images in which the Roma are no longer portrayed as objects but become subjects of written

representation Critical Perspectives on Hate Crime Amanda Haynes, Jennifer Schweppe, Seamus Taylor, 2017-05-15 This book provides a unique insight into the lived realities of hate crime in Ireland and its treatment within the criminal justice system. The significance of the Irish case is contextualised within the European and global policy contexts and an overview of hate crime in Ireland both north and south and its differential treatment in each jurisdiction's criminal justice system is offered. Presenting empirically grounded analyses of the experiences of commonly targeted identity groups in an Irish context, this study also draws upon their exposure to hate crime and challenges encountered in seeking redress. Combining theory, research and practice, this book represents legal, social, cultural and political concerns pertinent to understanding, preventing, deterring and combatting hate crime across Ireland. It incorporates a variety of perspectives on the hate crime paradigm and addresses many of the cutting edge debates arising in the field of hate studies. Contributions from Irish and international academic researchers are complemented by applied pieces authored by practitioners and policy makers actively engaged with affected communities. This is a progressive and informed text which will be of great value to activists, policy makers and scholars of hate crime and criminal justice.

Accessibility, Inclusion, and Diversity in Critical Event Studies Rebecca Finkel, Briony Sharp, Majella Sweeney, 2018-09-14 Most early social research into planned events had the effect of broadcasting narratives of dominant cultures and privileged groups. More recently, however, convergences of gender, sexualities, ethnicities, age, class, religion and intersectional analyses and events studies have started to drive new critical understanding of the impacts of events on non-mainstream, non-majority communities around the globe. This timely book addresses current gaps in the literature surrounding issues of accessibility, inclusion and diversity in various event landscapes. Structured into four parts covering the main types of events, the chapters present original topics using innovative methodological approaches. Each chapter employs a case study to illustrate the key intertwining issues in these various experiential realms. Further, the chapters are all cross or interdisciplinary, drawing on gender, sexualities, cultural, race, ethnicity studies as well as multiple literatures that feed into critical events studies and exploring a variety of global examples. This significant book opens the path to further research on the role and importance of accessibility, inclusion and diversity in events environments worldwide. It will be of interest to academics and researchers of critical event studies as well as a number of related social science disciplines.
