Alberti, 2017-10-03 This is a vital new work the first to take the University of Manchester s Museum as its subject By setting the museum in its cultural and intellectual contexts Nature and culture explores twentieth century collecting and display and the status of the object in the modern world Beginning with the origins of the Manchester Museum accounting for its development as an internationally renowned university museum and concluding at its major expansion at the turn of the millennium this book casts new light on the history of museums How did objects become knowledge Who encountered museum objects on their way to museums What happened to collections within the museum How did visitors use and respond to objects In answering these questions Nature and culture illuminates not only the history of one institution but also contributes to wider discussions in the history of science cultural history and museology **Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl** Avery Library, 1995 *The Parthenon Marbles Dispute* Alexander Herman, 2023-09-21 Why are we still arguing over the Parthenon Marbles This book offers a fresh take on the history of those famous pieces of ancient sculpture removed from the Acropolis in Athens by Lord Elgin s men in the early 19th century It explains how they became the cause c l bre of the larger debates around cultural heritage and restitution now taking place The subject is one that is currently embroiling museums governments universities and the public at large Herman provides a balanced thorough and critical account of the history of the Marbles while considering the legalities of their initial removal and the ethics of their retention by the British Museum It incorporates the views of curators museum directors lawyers archaeologists politicians and others in both London and Athens It explains why this particular dispute has

not been satisfactorily resolved and suggests new ways of seeking resolution for the Parthenon Marbles and for the many other cultural treasures held in museum collections outside their countries of origin The book sets out a way forward for this famously intractable dispute one based on evidence of past practice legal rules around the transfer of cultural objects and the role of museums in negotiating international exchanges **Natural History** ,2004 Unesco List of Documents and Publications Unesco,1997 *Museums of the World* Michael Zils,2002 *Museums* Mary Bouquet,2013-07-18 Museums A Visual Anthropology provides a clear and concise summary of the key ideas debates and texts of the most important approaches to the study of museums from around the world The book examines ways to address the social relations of museums embedded in their sites collections and exhibitions as an integral part of the visual and material culture they comprise Cross disciplinary in scope Museums uses ideas and approaches both from within and outside of anthropology to further students knowledge of and interest in museums Including selected globally based case studies to highlight and exemplify important issues the book also contains suggested Further Reading for each chapter for students to expand their learning independently Exploring fundamental methods and approaches to engage this constantly evolving time machine Museums will be essential reading for students of anthropology and museum studies **List of Documents and Publications in the Field of Culture** ,1994 Museums of the World Marco Schulze,Boris Eggers,2004 British Humanities Index ,2008 *World Heritage Review* ,2009 **Historical Abstracts** ,1997 **The Longman Anthology of British Literature** David Damrosch,Kevin J. H. Dettmar,2006 *The Grove Encyclopedia of Medieval Art and Architecture* Colum Hourihane,2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture Cinema Treasures Ross Melnick,Andreas Fuchs,2004 More than 100 years after the first movie delighted audiences movie theaters remain the last great community centers and one of the few amusements any family can afford While countless books have been devoted to films and their stars none have attempted a truly definitive history of those magical venues that have transported moviegoers since the beginning of the last century In this stunningly illustrated book film industry insiders Ross Melnick and Andreas Fuchs take readers from the nickelodeon to the megaplex and show how changes in moviemaking and political social and technological forces e g war depression the baby boom the VCR have influenced the way we see movies Archival photographs from archives like the Academy of Motion Picture Arts and Sciences and movie theater ephemera postcards period ads matchbooks and even a barf bag sourced from private collections complement Melnick s informative and engaging history Also included throughout the book are Fuchs profiles detailing 25 classic movie theaters that have been restored and renovated and which continue to operate today Each of these two page

spreads is illustrated with marvelous modern photographs many taken by top architectural photographers The result is a fabulous look at one way in which Americans continue to come together as a nation A timeline throughout places the developments described in a broader historical context We've had a number of beautiful books about the great movie palaces and even some individual volumes that pay tribute to surviving theaters around the country This is the first book I can recall that focuses on the survivors from coast to coast and puts them into historical context Sumptuously produced in an oversized format on heavy coated paper stock this beautiful book offers a lively history of movie theaters in America an impressive array of photos and memorabilia and a heartening survey of the landmarks in our midst from the majestic Fox Tucson Theatre in Tucson Arizona to the charming jewel box that is the Avon in Stamford Connecticut I don't know why but I never tire of gazing at black and white photos that evoke the era of moviemaking and moviegoing I care about the most and this book is packed with them Cinema Treasures is indeed a treasure and a perfect gift item for the holiday season Leonard Maltin Humble or grandiose stand alone or strung together movie theaters are places where dreams are born Once upon a time they were treated with the respect they deserve In their heyday historian Ross Melnick and exhibitor Andreas Fuchs write in Cinema Treasures openings of new motion picture pleasure palaces that would have dazzled Kubla Khan received enormous attention in newspapers around the country On top of the publicity they generated their debuts were treated like the gala openings of new operas or exhibits with critics weighing in on everything from the interior and exterior design to the orchestra Handsomely produced and extensively illustrated Cinema Treasures is detailed without being dull and thoroughly at home with this often neglected subject matter Its title would have you believe it is a celebration of the golden age of movie theaters But this book is something completely different an examination of the history of movie exhibition which the authors accurately call a vastly under researched topic Los Angeles Times

Travelling around Cultures Zsolt Győri, Gabriella Moise, 2017-01-06 Culture has always relied on art just as artists have been dependent on culture as a problem field to draw inspiration from and as a store of social ideological and political practices to endorse or criticise This volume addresses this dynamic reality by investigating how literary cinematic and artistic practices expose the often invisible structures and discourses which underlie the values concepts rites and myths specific to Anglo American cultural environments On the one hand the chapters revisit classical as well as contemporary authors including Charles Dickens Emily Dickinson Janice Galloway and Matthew Kneale through the lenses of culture to explore how their works become social commentaries and a cultural diagnosis On the other hand they explore the politics and ideological effects of cultural practices exemplified by such matters as censorship reading communities fan fiction and travelogues
