**Unhealthy Alcohol Use in Older Adults** Erin L. Woodhead,2023-09-11 As our population ages practitioners find themselves working with older adults more frequently Alcohol use problems among older adults are often underdiagnosed and undertreated and there are few treatments designed specifically for this client group This practical

guide provides practitioners with up to date information on assessing and treating unhealthy alcohol use among older adults. With a focus on evidence based treatments it is highly relevant to practitioners working across a variety of settings. Through the author's expertise we learn about the prevalence of alcohol use among older adults, the models for understanding unhealthy use and the different screening and assessment options as well as the treatment possibilities relevant to health care and social service providers. Assessment and treatment options highlight the need to consider lifespan development when providing care as well as the relevance of common life transitions and generational differences. Clinical pearls and vignettes illuminate treatment approaches and further sections discuss pharmacological interventions and cultural considerations. Printable tools are available in an appendix. This book is a must for practitioners from diverse settings who work with older adults. The materials for this book can be downloaded from the Hogrefe website after registration.

**Rethinking the Aging Transition** Kallol Kumar Bhattacharyya, 2021-11-12. The transitional phase from pre older adult to older adult affects the wellbeing of the concerned person economically, physically and psychologically. This book is a description of the aging transition and discusses various psychological, health and social challenges faced by older adults globally. It also offers a comparative study on the lifestyles of older adults in India and the United States. Although there is no consensus yet on an all encompassing theory of aging, this book centers on various theories related to aging processes in an effort to advance discussion on different aspects of aging. Various theoretical formulations such as person centered, Hinduism, biopsychosocial and positive psychology guided the author to address the topics covered in this volume. Aging and Physicians, Aging and Retirement, Aging, Caregiving and COVID 19, Aging and Diversity, Aging and Longevity, Aging, Disease Prevention and Technology, Aging and Spirituality. Through the chapters, the author builds an understanding of the fundamental relation of aging with various health and socioeconomic factors and also emphasizes a person centered holistic approach that values personal autonomy, choice, comfort, dignity and purposeful living to support aging well. *Rethinking the Aging Transition: Psychological Health and Social Principles to Guide Aging Well* has academic value from a multicultural perspective that would be of benefit to graduate and undergraduate students in gerontology and other disciplines that study aging and older adult populations. With the main aim of raising awareness, this book is an important resource for a diverse group of populations globally including clinical and non clinical caregivers, other health care professionals and policy makers.

*Aging and Mental Health* Daniel L. Segal, Sara Honn Qualls, Michael A. Smyer, 2018-01-18. Fully updated and revised, this new edition of a highly successful text provides students, clinicians and academics with a thorough introduction to aging and mental health. The third edition of *Aging and Mental Health* is filled with new updates and features including the impact of the DSM 5 on diagnosis and treatment of older adults. Like its predecessors, it uses case examples to introduce readers to the field of aging and mental health. It also provides both a synopsis of basic gerontology needed for clinical work with older adults and an analysis of several facets of aging well. Introductory chapters are followed by a series of chapters that describe

the major theoretical models used to understand mental health and mental disorders among older adults Following entries are devoted to the major forms of mental disorders in later life with a focus on diagnosis assessment and treatment issues Finally the book focuses on the settings and contexts of professional mental health practice and on emerging policy issues that affect research and practice This combination of theory and practice helps readers conceptualize mental health problems in later life and negotiate the complex decisions involved with the assessment and treatment of those problems Features new material on important topics including positive mental health hoarding disorder chronic pain housing caregiving and ethical and legal concerns Substantially revised and updated throughout including reference to the DSM 5 Offers chapter end recommendations of websites for further information Includes discussion questions and critical thinking questions at the end of each chapter Aging and Mental Health Third Edition is an ideal text for advanced undergraduate and graduate students in psychology for service providers in psychology psychiatry social work and counseling and for clinicians who are experienced mental health service providers but who have not had much experience working specifically with older adults and their families
