**The Anthropologist as Writer** Helena Wulff, 2016-03-01 Writing is crucial to anthropology but which genres are anthropologists expected to master in the 21st century This book explores how anthropological writing shapes the intellectual content of the discipline and academic careers First chapters identify the different writing genres and contexts anthropologists actually engage with Second this book argues for the usefulness and necessity of taking seriously the idea of writing as a craft and of writing across and within genres in new ways Although academic writing is an anthropologist s primary genre they also write in many others from drafting administrative texts and filing reports to composing ethnographically inspired journalism and fiction **Unsettling Whiteness** Lucy Michael, Samantha Schulz, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 Unsettling Whiteness brings together an international collection that considers anew the politics practices and representations of whiteness at a time when nations worldwide continue to grapple with issues that are underwritten by whiteness

*Corner-Store Dreams and the 2008 Financial Crisis* Peter Wogan, 2017-04-01 This book tells the incredible true story of Ranulfo Ju rez a Mexican immigrant After working for years in the fields of Oregon and becoming a U S citizen Ranulfo started making plans to buy a small bakery in 2005 But not knowing if the economy would hold steady Ranulfo examined his dreams every morning in search of secret clues foretelling insight and a successful bakery or homelessness Ranulfo also enlisted author Peter Wogan a white anthropology professor with a penchant for self doubt as his confidante and sidekick in this quest Readers won t know until the end whether Ranulfo became another innocent victim of the Financial Crisis of 2008 but throughout they will see Ranulfo and Peter confront naysayers and cheats as well as their own differences and fears Like Don Quixote this book is comical subversive and inspirational **Dynamics Behind Persistent Images of "the Other"** Vanessa Wijngaarden, 2016 In tourism strangers meet face to face What do Tanzanian Maasai and Western tourists think when they meet Using a combination of methods that has never been tried in anthropology or in the field of tourism studies this work provides novel theoretical insights into the images hosts and guests have of each other and how their views relate

to the interactions they experience This compelling reflexive study uses video and Q method to contribute to the epistemology of anthropological research in tourism settings and the construction of a new more symmetrical anthropology

McGhee,J.H. Goldstein,2012-12-06 About a decade ago we edited The Psychology of Humor Besides the summary chapter and bibliography of about 400 items the book contained eleven original papers that represented the state of knowledge at that time We confess that it was not easy to fill that volume with first rate contributions In a few instances we invited contributors only on the basis of having heard through the grapevine that they were doing interesting work on humor Our sources proved reliable and we were pleased with the results We even made new friends as a result of these blind invitations But the fact remains that in the early 1970s there was only a handful of social scientists studying humor and laughter The history of humor research prior to the 1970s can also be characterized in terms of the short term commitment to investigating humor among those who did venture out and try their hand at designing humor studies For

reasons that remain unclear many investigators published only one or two humor studies before abandoning the area in favor of some other research domain We have the impression that for decades social scientists have been very intrigued by the idea of studying humor Psychologists have suspected for a long time that humor somehow is very important in the lives of people We find laughter and humor occurring almost wherever we find people engaged in social interaction

The Boasians William Y. Adams, 2016-09-02 This book is a study in depth of the work of Franz Boas and twenty of his students at Columbia University in the early years of the twentieth century Collectively they laid the entire institutional as well as the intellectual foundations of American anthropology as it exists today The book begins with a discussion of the historical context of Boasian anthropology and an overview of its nature and limitations The work of Boas and his leading students is then discussed in detail including biographical data a review and critique of their research a review in detail of each of their major publications and an overall assessment of their contribution to anthropology as seen in their own time and today

*The Bungling Host* Daniel Clément, 2018-08-01 The Bungling Host motif appears in countless indigenous cultures in North America and beyond In this groundbreaking work Daniel Clément has gathered nearly four hundred North American variants of the story to examine how myths acquire meaning for their indigenous users and explores how seemingly absurd narratives can prove to be a rich source of meaning when understood within the appropriate context In analyzing the Bungling Host tales Clément considers not only material culture but also social economic and cultural life Native knowledge of the environment and the world of plants and animals Clément's analysis uncovers four operational modes in myth construction and clarifies the relationship between mythology and science Ultimately he demonstrates how science may have developed out of an operational mode that already existed in the mythological mind
