

3D Trigonometry Example

- An airport tower is 30 m tall
- The controller spots 2 planes on the ground
- Plane 1 has an angle of depression of 20° on a bearing of 60°
- Plane 2 has an angle of depression of 50° on a bearing of 100°

Determine the distance between the 2 planes.

Trig 3d Word Problems Grade 11:

Visualisation and Epistemological Access to Mathematics Education in Southern Africa Marc

Schäfer,2023-04-27 This book demonstrates that using visualisation processes in mathematics education can help to enhance teaching and learning and bridge the inequality gap that exists between well resourced and under resourced schools in Southern Africa Drawing on classroom research conducted in the Southern African region it examines how epistemological access in a context of gross inequality can be constructively addressed by providing research based solutions and recommendations The book outlines the visualisation process as an integral but often overlooked process of mathematics teaching and learning It goes beyond the traditional understanding of visualisation processes such as picture forming and using tools and considers visualisation processes that are semiotic in nature and includes actions such as gestures in combination with language It adds value to the visualisation in mathematics education research discourse and deliberation in Africa With a unique focus on Southern Africa and open avenues for further research and collaboration in the region it will be a highly relevant reading for researchers academics and post graduate students of mathematics education comparative education and social justice education **THE Journal** ,1997 *The Complete Sourcebook on Children's Software*
