Consequently the print quality of these later Triumph factory manuals was somewhat compromised by the re use of images and text from earlier manuals This re use is apparent in this manual as the quality of the images and the density of the text varies within the page and or from one page to another While we have done our best to normalize the print density there will still be variations that were just too difficult to correct Yet another issue associated with the mounting financial problems was the apparent scramble to introduce new models or variants of existing models in order to encourage buyers This resulted in a proliferation of model numbers a list of some but likely not all of those variants is included below 1979 T140E TR7V T140D 1980 T140ES 1981 T140PE TR7T TR65 650cc TS8 1 Royal Bonneville 1982 TSS TSX TR65T 1983 TSX8 TSX4 Thunderbird 600 Daytona 600 Consequently owners of the 1979 to 1983 models are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various manuals that have recently flooded the marketplace We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years Owners of the 1973 to 1978 750cc machines are directed to workshop manual ISBN 9781588502919
