Writing the Shadow Joanna Penn,2023-12-22 Do you want to connect with readers on a deeper level Do you want your books to stand out in a sea of content by being authentic and personal in your writing whatever the genre Are you interested in creative self development If yes Writing the Shadow is for you This is a book of my heart and it contains many personal stories but this book is really about helping you reach readers with your words and move to the next level in your writing Because we all long to write boldly without filters or fear To spin stories that capture the

messy beauty of what it means to be human Tales that lay bare the truth of living darkness and all But something holds us back Whispers of Who do you think you are and You don t have permission to write that Our own self censorship and the judgment of others keep us from writing freely and sometimes from living fully But all great art taps into darkness and your most compelling work emerges when you embrace your full humanity both light and Shadow In Writing the Shadow I ll guide you on an intimate journey to explore the darkness and discover the gold lying hidden in its depths Gold that may be the source of your best creative work in the years ahead The Shadow is calling It s time to turn your inner darkness into words Part 1 goes into the various ways you can tap into your Shadow Since it lies in the unconscious you cannot approach it directly You need tools to help reveal it in different ways You will find ideas here ranging from personality assessments and identifying Shadow personas to mining your own writing and exploring your true curiosity as well as ways to protect yourself so you don t get lost in the dark Part 2 explores how the Shadow manifests in various aspects of our lives I discuss the creative wound and how it may still be holding you back in your writing life as well as aspects of traditional and self publishing then expand into work and money family and relationships religion and culture the physical body and aging death and dying Part 3 explores ways that you can find the gold in your Shadow and turn your inner darkness into words through self acceptance letting go of self censorship deepening character and theme in your work and opening the doors to new parts of yourself While the book is designed to be read in order you can also skip directly to the sections that resonate the most There are Resources and Questions at the end of every chapter that will help you reflect along the way You can answer them in your own journal or use the Companion Workbook if you prefer to write in a more structured way

Leaders Leap Steve Dennis,2024-04-23 Leaders Leap goes beyond the standard business playbook and teaches you the secrets to creating the bolder faster and essential transformation needed to avoid becoming irrelevant in an era of profound and accelerating change Renowned thought leader on business strategy and innovation Steve Dennis argues that most business transformations are doomed to fail due to two fundamental reasons their leaders don t aim high enough delivering mostly incremental changes rather than something truly remarkable and they move far too slowly to keep up with the pace of disruption This gap between what is required in a world of seismic shifts in technology and customer requirements and what is typically delivered risks putting many organizations on the road to extinction Solid strategy team building and process planning are essential and there are plenty of books out there to show you how to improve them all but these elements are not enough on their own to ensure success During a 40 year career where he ascended to the senior leadership roles at two Fortune 500 companies followed by becoming an in demand strategic advisor and keynote speaker Dennis observed C suite executives underestimate the scope magnitude and speed of change needed to survive much less thrive In Leaders Leap he makes the case for why a complete metamorphosis of leadership mindset is essential to prevent organizations from becoming irrelevant and explores seven profound mind leaps leaders need to make now to transform at the speed of disruption This

book takes leaders on a courageous journey of self reflection personal accountability and growth exposing the ways in which our ego defects blind spots confirmation bias and defense mechanisms get in the way of the progress we need to make How the accelerating pace of disruption is making old strategic frameworks useless and why we need to think bigger act more boldly and move much faster How the executive ego prevents us from seeing this new reality and can limit our acceptance of new strategies for change How fear and pride constrain vision and lead to timid transformation programs that are virtually guaranteed to fail Why decades of leadership experience can undermine the ability to let go of outdated ideas to think and act more boldly With illuminating case studies and hard earned personal wisdom Dennis helps you create important strategic and mental shifts to find humility sharpen your customer focus amplify your brand s wow factor and truly innovate at the speed of disruption If you want your organization to make the leap from imperiled to thriving Leaders Leap provides an inspiring call to action and the catalyzing ideas to guide you to a more remarkable and sustainable future *Business For Authors* Joanna Penn, 2018-08-12 Are you ready to take the next step in your author journey Art for the sake of art is important Writing for the love of it or to create something beautiful on the page is absolutely worthwhile and critical to expand the sum of human expression But I m not here to talk about creativity or the craft of writing in this book My aim is to take the result of your creativity into the realm of actually paying the bills To take you from being an author to running a business as an author I was a business consultant for 13 years before I gave up my job in September 2011 to become a full time author entrepreneur I worked for large corporates and small businesses implementing financial systems across Europe and Asia Pacific I ve also started a number of my own businesses a scuba dive charter boat in New Zealand a customized travel website a property investment portfolio in Australia as well as my freelance consultancy I ve failed a lot and learned many lessons in my entrepreneurial life and I share them all in this book In the last six years of being an author through tempestuous changes in the publishing world I ve learned the business side of being a writer and I now earn a good living as an author entrepreneur I m an author because it s my passion and my joy but also because it s a viable business in this age of global and digital opportunity In the book you will learn Part 1 From Author To Entrepreneur The arc of the author s journey definition of an author entrepreneur deciding on your definition of success Plus should you start a company Part 2 Products and Services How you can turn one manuscript into multiple streams of income by exploiting all the different rights various business models for authors and how to evaluate them information on contracts copyright and piracy Plus putting together a production plan Part 3 Employees Suppliers and Contractors The team you need to run your business Your role as author and what you re committing to as well as co writing Editors agents and publishers translators book designers and formatters audiobook narrators book keeping and accounting virtual assistants Plus how to manage your team Part 4 Customers In depth questions to help you understand who your customers are and what they want as well as customer service options for authors Part 5 Sales and Distribution How to sell through distributors and your options plus all the information you need to
