Was America Mistake Eighteenth Century Controversy:

Was America a Mistake? Henry Steele Commager, Elmo Giordanetti, 1967 *The Politics of History* Arthur H. Shaffer, 2017-07-12 This is an analysis of the American Revolutionary generation's attempt to create a national history that would justify the Revolution and develop a sense of nationhood Shaffer pursues a number of themes and establishes a connection between the historians' republican ideology, political concerns and outlook and the precise ways in which they interpreted American history He also includes an analysis of their background, education, profession, political persuasion, personal ambitions and circumstances and attitudes toward the problem of union during the 1780s The writings here offer unusual insights into the mind of the Revolutionary generation The histories produced during the early national period represent the beginnings of a genre of writing new to America one characterized by the subjugation of history to the service of nationalism It is this element, nationalism, that gave this history its flavor, made possible its achievement, saddled it with difficulties and although unintentionally produced a tone and emphasis different from that of the Enlightenment The contribution of the Revolutionary generation of historians to the public identity represents an important aspect of the intellectual history of the early national period With all their frequent vagueness and imprecision of formulation, almost incantatory repetitiousness and patriotic sentimentality the works of the first national generation of historians comprise a revealing effort to come to grips with the meaning of the Revolution and nationhood This striving charted much of the course that American historiography was to travel thereafter Old World, New World Leonard J. Kubal, 2008-10-13 This book uses political process theory to examine three cultural movements around Christopher Columbus The author examines the religious, ethnic and anti colonial movements most successful at rewriting national origin myth demonstrating the political process model while telling the story of how a powerless public mobilized to rewrite its past Defending Sin Hans Madueme, 2024-05-28 The conflict between the natural sciences and Christian theology has been going on for centuries Recent advances in the fields of evolutionary biology, behavioral genetics and

neuroscience have intensified this conflict particularly in relation to origins the fall and sin These debates are crucial to our understanding of human sinfulness and necessarily involve the doctrine of salvation Theistic evolutionists have labored hard to resolve these tensions between science and faith but Hans Madueme argues that the majority of their proposals do injustice both to biblical teaching and to long standing doctrines held by the mainstream Christian tradition In this major contribution to the field of science and religion Madueme demonstrates that the classical notion of sin reflected in Scripture the creeds and tradition offers the most compelling and theologically coherent account of the human condition He answers pressing challenges from the physical sciences on both methodological and substantive levels Scholars pastors students and interested lay readers will profit from interacting with the arguments presented here

Was America a Mistake? Henry Steele Commager, Elmo Giordanetti, 1968 *Literature, American Style* Ezra Tawil, 2018-07-16 Between 1780 and 1800 authors of imaginative literature in the new United States wanted to assert that their works which bore obvious connections to anglophone literature on the far side of the Atlantic nevertheless constituted a properly American tradition No one had yet figured out however what it would mean to write like an American what literature with an American origin would look like nor what literary characteristics the elusive quality of Americanness could generate Literature American Style returns to this historical moment decades before the romantic nationalism of Cooper the transcendentalism of Emerson and Thoreau or the iconoclastic poetics of Whitman when a fantasy about the unique characteristics of U S literature first took shape and when that notion was linked to literary style While late eighteenth century U S literature advertised itself as the cultural manifestation of a radically innovative nation Ezra Tawil argues it was not primarily marked by invention or disruption In fact its authors self consciously imitated European literary traditions while adapting them to a new cultural environment These writers gravitated to the realm of style then because it provided a way of sidestepping the uncomfortable reality of cultural indebtedness it was their use of style that provided a way of departing from European literary precedents Tawil analyzes Noah Webster s plan to reform the American tongue J Hector St John de Cr vecoeur s fashioning of an extravagantly naive American style from well worn topoi Charles Brockden Brown s adaptations of the British gothic and the marriage of seduction plots to American plain style in works such as Susanna Rowson s Charlotte Temple and Hannah Webster Foster s The Coquette Each of these works claims to embody something American in style yet according to Tawil remains legible only in the context of stylistic generic and conceptual forms that animated English cultural life through the century
