Revenant Phaedra Weldon, 2010-06-01 View our feature on Phaedra Weldon's Revenant The smart sassy single and highly original 1 New York Times bestselling author Patricia Briggs Zo Martinique is back and she's seeking clues on the other side Zo Martinique's life hasn't been ordinary for quite awhile First she developed the ability to travel outside her body at will where she encountered some seriously weird things Things that left her with powers that she didn't really want or need Still a person can get used to almost anything even being a Wraith Though more often than not it plays serious havoc with her love life But for once Zo is glad of her abilities Bodies are showing up all over Atlanta drained of blood They're beings from another astral plane called Revenants and they're being stalked by her old enemy the Phantasm The Revenants are hardly the nicest of creatures but to preserve the cosmic balance Zo will need to put everything on the line to save them
