The Victorians And The Visual Imagination:

The Victorians and the Visual Imagination Kate Flint, 2000-08-28 The Victorians and the Visual Imagination is an exciting and innovative exploration of the Victorians attitudes towards sight Tantalized by physiologists who proved the unreliability of the eye intrigued by the role of subjectivity within vision and provoked by new technologies of spectatorship the Victorians were also imaginatively stirred by the sense of a world which lay just out of human sight This interdisciplinary study draws on writers as diverse as George Eliot Elizabeth Barrett Browning and Rudyard Kipling as well as Pre Raphaelite and realist painters including Millais Burne Jones William Powell Frith and Whistler and a host of Victorian scientists cultural commentators and art critics Its topics include blindness the location of memory hallucination dust and the importance of the horizon a dazzling eclectic range of subjects linked together by the operations of the eye and brain *Victorian Literature and the Victorian Visual Imagination* Carol T. Christ, John O. Jordan, 2024-03-29 Nineteenth century British culture frequently represented the eye as the preeminent organ of truth These essays explore the relationship between the verbal and the visual in the Victorian imagination They range broadly over topics that include the relationship of optical devices to the visual imagination the role of photography in changing the conception of evidence and truth the changing partnership between illustrator and novelist and the ways in which literary texts represent the visual Together they begin to construct a history of seeing in the Victorian period This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 **Victorian Literature and Victorian Visual Imagination** Carol T. Christ, John O. Jordan, 1995 *Victorian Literature and the Victorian Visual Imagination* Carol T. Christ, John O. Jordan, 1995-01-01 Looks freshly at facts that have remained marginal to most critics sense of the literature the sheer mechanism of artistic and literary reproductions These essays make an unusual various and interesting collection with appeal to a great many constituencies George Levine author of Darwin and the Novelists This is an exciting collection linked by a series of contemporary critical assumptions and Victorian concerns For all their reconsideration of theory the essays are written in a lively jargon free style that should give them popular as well as scholarly appeal Carole Silver coeditor of *Socialism and the Literary Artistry of William Morris* **Sensing the Past** Mark Michael Smith, 2007 Smith s history of the sensate is destined to precipitate a revolution in our understanding of the sensibilities that underpinned the mentalities of past epochs David Howes author of *Sensual Relations Engaging the Senses in Culture and Social Theory* Mark M Smith presents a far ranging essay on the history of the senses that serves simultaneously as a good introduction to the historiography If one feels in danger of sensory overload from this growing body of scholarship Smith s piece is a useful preventive Leigh E Schmidt author of *Restless Souls The Making of American Spirituality* This is a masterful overview The

history of the senses has been a frontier field for a while now Mark Smith draws together what we know with an impressive sensory range and encourages further work A really exciting survey Peter N Stearns author of *American Fear The Causes and Consequences of High Anxiety* Who would ever have guessed that a book on the history of the senses seeing hearing touching tasting and smelling could be informative thought provoking and at the same time most entertaining Ranging in both time and locale Mark Smith's *Sensing the Past* makes even the philosophy about the senses from ancient times to now both learned and exciting This work will draw scholars into under recognized subjects and lay readers into a world we simply but unwisely take for granted Bertram Wyatt Brown author of *Southern Honor Ethics and Behavior in the Old South* Mark M Smith has a good record of communicating his research to a broad constituency within and beyond the academy This will be required reading for anyone addressing sensory history Penelope Gouk author of *Music Science and Natural Magic in Seventeenth Century England* This is a fine cultural history of the body which takes Western and Eastern traditions and their texts quite seriously Smith views a history of the senses not only from below but places it squarely in the historical imagination It will be of interest to a wide range of readers Sander L Gilman author of *Difference and Pathology* **Ruskin, the Theatre and Victorian Visual Culture** A. Heinrich, K. Newey, J. Richards, 2009-04-08 This collection of essays sets out to challenge the dominant narrative about Victorian theatre by placing the practices and products of the Victorian theatre in relation to Victorian visual culture through the lens of the concept of Ruskinian theatre an approach to theatre which values its educative purpose as well as its aesthetic expression *Victorian Literature and the Physics of the Imponderable* Sarah C Alexander, 2015-07-28 The Victorians were obsessed with the empirical but were frequently frustrated by the sizeable gaps in their understanding of the world around them This study examines how literature and popular culture adopted the emerging language of physics to explain the unknown or imponderable *The Oxford Handbook of the Victorian Novel* Lisa Rodensky, 2013-07-11 Much has been written about the Victorian novel and for good reason The cultural power it exerted and to some extent still exerts is beyond question The Oxford Handbook of the Victorian Novel contributes substantially to this thriving scholarly field by offering new approaches to familiar topics the novel and science the Victorian Bildungsroman as well as essays on topics often overlooked the novel and classics the novel and the OED the novel and allusion Manifesting the increasing interdisciplinarity of Victorian studies its essays situate the novel within a complex network of relations among for instance readers editors reviewers and the novelists themselves or among different cultural pressures the religious the commercial the legal The handbook's essays also build on recent bibliographic work of remarkable scope and detail responding to the growing attention to print culture With a detailed introduction and 36 newly commissioned chapters by leading and emerging scholars beginning with Peter Garside's examination of the early nineteenth century novel and ending with two essays proposing the last Victorian novel the handbook attends to the major themes in Victorian scholarship while at the same time creating new possibilities for further research Balancing breadth and depth the clearly written nonjargon

laden essays provide readers with overviews as well as original scholarship an approach which will serve advanced undergraduates graduate students and established scholars As the Victorians get further away from us our versions of their culture and its novel inevitably change this Handbook offers fresh explorations of the novel that teach us about this genre its culture and by extension our own Charles Darwin and Victorian Visual Culture Jonathan Smith,2006-07-06 A highly illustrated account of Darwin s visual representations of his theories and their influence on Victorian literature art and culture first published in 2006 *A Companion to Victorian Poetry* Ciaran Cronin,2008-04-15 This Companion brings together specially commissioned essays by distinguished international scholars that reflect both the diversity of Victorian poetry and the variety of critical approaches that illuminate it Approaches Victorian poetry by way of genre production and cultural context rather than through individual poets or poems Demonstrates how a particular poet or poem emerges from a number of overlapping cultural contexts Explores the relationships between work by different poets Recalls attention to a considerable body of poetry that has fallen into neglect Essays are informed by recent developments in textual and cultural theory Considers Victorian women poets in every chapter *Madrid on the move* Vanesa Rodríguez-Galindo,2021-02-02 Madrid on the move illustrates print culture and the urban experience in nineteenth century Spain It provides a fresh account of modernity by looking beyond its canonical texts artworks and locations and explores what being modern meant to people in their daily lives Rather than shifting the loci of modernity from Paris or London to Madrid this book decentres the concept and explains the modern experience as part of a more fluid global phenomenon Meanings of the modern were not only dictated by linguistic authorities and urban technocrats they were discussed lived and constructed on a daily basis Cultural actors and audiences displayed an acute awareness of what being modern entailed and explored the links between the local and the global two concepts and contexts that were being conceived and perceived as inseparable **Vision, Science and Literature, 1870-1920** Martin Willis,2015-10-06 This book explores the Victorian concept of vision across scientific and cultural forms Willis charts the characterization of vision through four organizing principles small large past and future to arrive at a Victorian conception of what vision was Willis then explores how this Victorian vision influenced twentieth century ways of seeing **A Social History of the Media** Asa Briggs,Peter Burke,2005-07-29 It will be an ideal text for students in history media and cultural studies and journalism but it will also appeal to a wide general readership *Victorian Photography, Literature, and the Invention of Modern Memory* Jennifer Green-Lewis,2020-08-07 Analysing a broad range of texts by inventors cultural critics photographers and novelists this book argues that Victorian photography ultimately defined the concept of memory for generations to come including our own The book will be of interest to students of Victorian and modernist literature visual culture and intellectual history as well as scholars working within the emerging field of research at the intersection of photographic and literary studies **The Victorian Novel and the Space of Art** Dehn Gilmore,2014-01-09 An interdisciplinary study of the relationship between the Victorian novel and visual art including

galleries museums and The Great Exhibition **Stemming the Torrent** Gesa Stedman,2020-09-10 This title was first published in 2002 Gesa Stedman mines the vein of emotion in Victorian writing to unearth new insights into the ways literature responded to the dramatic social and political changes then taking place Contemporary research from various disciplines including sociology ethnology and history inform this study which juxtaposes canonical material such as Dickens Hard Times Charlotte Bronte s Shirley and Germaine de Stael s Corinne with popular novels and non fictional texts such as The Education of the Heart by Sarah Ellis and Darwin s On the Expression of the Emotions in Man and Animals The analysis deals with emotions applying to both genders but includes a special section examining the representation of emotion in relation to women The book aims to provide new insight into the literature of the period and brings to light new material for scholars interested in the philosophy and psychology of emotions Britain and the Narration of Travel in the Nineteenth Century Kate Hill,2017-05-15 Interrogating the multiple ways in which travel was narrated and mediated by and in response to nineteenth century British travelers this interdisciplinary collection examines to what extent these accounts drew on and developed existing tropes of travel The three sections take up personal and intimate narratives that were not necessarily designed for public consumption tales intended for a popular audience and accounts that were more clearly linked with discourses and institutions of power such as imperial processes of conquest and governance Some narratives focus on the things the travelers carried such as souvenirs from the battlefields of Britain s imperial wars while others show the complexity of Victorian dreams of the exotic Still others offer a disapproving glimpse of Victorian mores through the eyes of indigenous peoples in contrast to the imperialist vision of British explorers Swiss hotel registers guest books and guidebooks offer insights into the history of tourism while new photographic technologies the development of the telegraph system and train travel transformed the visual audial and even the conjugal experience of travel The contributors attend to issues of gender and ethnicity in essays on women travelers South African travel narratives and accounts of China during the Opium Wars and analyze the influence of fictional travel narratives Taken together these essays show how these multiple narratives circulated cross fertilised and reacted to one another to produce new narratives new objects and new modes of travel

Visual Rhetoric and the Eloquence of Design Leslie Atzman,2011-03-11 The essays in VISUAL RHETORIC AND THE ELOQUENCE OF DESIGN foreground the rhetorical functions of design artifacts Rhetoric normally understood as verbal or visual messages that have a tactical persuasive objective a speech that wants to convince us to vote for someone or an ad that tries to persuade us to buy a particular product becomes in Visual Rhetoric and the Eloquence of Design the persuasive use of a broad set of meta beliefs Designed objects are particularly effective at this second level of persuasion because they offer audiences communicative data that reflect and also orchestrate a potentially broad array of cultural concerns Persuasion entails both the aesthetic form and material composition of any object **The Oxford Handbook of Victorian Literary Culture** Juliet John,2016-06-30 The Oxford Handbook of Victorian Literary Culture is a major contribution to the

dynamic field of Victorian studies This collection of 37 original chapters by leading international Victorian scholars offers new approaches to familiar themes including science religion and gender and gives space to newer and emerging topics including old age fair play and economics Structured around three broad sections Ways of Being Identity and Ideology Ways of Understanding Knowledge and Belief and Ways of Communicating Print and Other Cultures the volume is sub divided into nine sub sections each with its own lead essay on subjectivity politics gender and sexuality place and race religion science material and mass culture aesthetics and visual culture and theatrical culture The collection like today s Victorian studies is thoroughly interdisciplinary and yet its substantial Introduction explores a concern which is evident both implicitly and explicitly in the volume s essays that is the nature and status of literary culture and the literary from the Victorian period to the present The diverse and wide ranging essays present original scholarship framed accessibly for a mixed readership of advanced undergraduates graduate students and established scholars

Russian Realisms Molly Brunson, 2016-09-10 One fall evening in 1880 Russian painter Ilya Repin welcomed an unexpected visitor to his home Lev Tolstoy The renowned realists talked for hours and Tolstoy turned his critical eye to the sketches in Repin s studio Tolstoy s criticisms would later prompt Repin to reflect on the question of creative expression and conclude that the path to artistic truth is relative dependent on the mode and medium of representation In this original study Molly Brunson traces many such paths that converged to form the tradition of nineteenth century Russian realism a tradition that spanned almost half a century from the youthful projects of the Natural School and the critical realism of the age of reform to the mature masterpieces of Tolstoy Fyodor Dostoevsky and the paintings of the Wanderers Repin chief among them By examining the classics of the tradition Brunson explores the emergence of multiple realisms from the gaps disruptions and doubts that accompany the self conscious project of representing reality These manifestations of realism are united not by how they look or what they describe but by their shared awareness of the fraught yet critical task of representation By tracing the engagement of literature and painting with aesthetic debates on the sister arts Brunson argues for a conceptualization of realism that transcends artistic media Russian Realisms integrates the lesser known tradition of Russian painting with the familiar masterpieces of Russia s great novelists highlighting both the common ground in their struggles for artistic realism and their cultural autonomy and legitimacy This erudite study will appeal to scholars interested in Russian literature and art comparative literature art history and nineteenth century realist movements
