End of Nature Michael Lobel, 2024-06-25 A groundbreaking reassessment that foregrounds Van Gogh's profound engagement with the industrial age while making his work newly relevant for our world today Vincent van Gogh 1853-1890 is most often portrayed as the consummate painter of nature whose work gained its strength from his direct encounters with the unspoiled landscape Michael Lobel upends this commonplace view by showing how Van Gogh's pictures are inseparable from the modern industrial era in which the artist lived from its factories and polluted skies to its coal mines and gasworks and how his art drew upon waste and pollution for its subjects and even for the very materials out of which it was made Lobel underscores how Van Gogh's engagement with the environmental realities of his time provides repeated forewarnings of the threats of climate change and ecological destruction we face today Van Gogh and the End of Nature offers a radical revisioning of nearly the full span of the artist's career considering Van Gogh's artistic process his choice of materials and some of his most beloved and iconic pictures Merging a timely sense of environmental urgency with bold new readings of the work of one of the world's most acclaimed artists this book weaves together detailed historical research and perceptive analysis into an illuminating portrait of an artist and his changing world Vincent Van Gogh Vincent van Gogh, 2009 Vincent van Gogh's letters have long been prized as some of the most valuable documents in the world of art Not only do they throw light on Van Gogh's own complex and intriguing character they enlighten the whole creative process as seen through his eyes This book presents biographical and art historical information Vincent van Gogh's letters have long been prized as some of the most valuable documents in the world of art Not only do they throw light on Van Gogh's own complex and intriguing character they enlighten the whole creative process as seen through his eyes Now Van Gogh's entire existing correspondence is to be published in the most complete edition ever produced illustrated extensively throughout and drawing on fifteen years of scholarship and dedicated research For the first time all the works to which Van Gogh refers will be shown alongside the letters not only the paintings and drawings that he himself was working on at the time but also the works of art by others that he mentions Sketches that Van Gogh made throughout the letters themselves are all reproduced here at full size In over 900 letters we can observe Van Gogh's thoughts and opinions at first hand as well as his close ties with his brother Theo his sometimes troubled relationships with friends and fellow artists his personal doubts and fears and above all his overriding passion for his art This edition is not only an immense treasure trove of biographical and art historical information it provides a lasting pleasure as a personal written testimony to a life consecrated to art **De grote Vincent van Gogh atlas** Nienke Denekamp, René van Blerk, 2022 **The Letters of Vincent Van Gogh to His Brother, 1872-1886** Vincent van Gogh, 1927 *The Rijksmuseum Vincent Van Gogh* Rijksmuseum Vincent van Gogh, 1987 *Vincent Van Gogh: Antwerp & Paris 1885-1888* Sjraar van Heugten, 2001 *The Publishers' Circular and Booksellers' Record*, 1922 **Francis Bacon's Studio** Margarita Cappock, 2005 Profusely illustrated with unique material that has never previously been published Francis Bacon's Studio makes an important contribution to Bacon studies especially in
