The Urban Image Of Late Antique Constantinople:

The Urban Image of Late Antique Constantinople Sarah Bassett, 2004 This book reconstructs Constantinople's collection of antiquities from its foundation to its fall The Bronze Horseman of Justinian in Constantinople Elena N. Boeck, 2021-04-29 Biography of the medieval Mediterranean's most cross culturally significant sculptural monument the tallest in the pre modern world Between the Pagan Past and Christian Present in Byzantine Visual Culture Paroma Chatterjee, 2022-01-06 Up to its pillage by the Crusaders in 1204 Constantinople teemed with magnificent statues of emperors pagan gods and mythical beasts Yet the significance of this wealth of public sculpture has hardly been acknowledged beyond late antiquity In this book Paroma Chatterjee offers a new perspective on the topic arguing that pagan statues were an integral part of Byzantine visual culture Examining the evidence in patriographies chronicles novels and epigrams she demonstrates that the statues were admired for three specific qualities longevity mimesis and prophecy attributes that rendered them outside of imperial control and endowed them with an enduring charisma sometimes rivaling that of holy icons Chatterjee's interpretations refine our conceptions of imperial imagery the Hippodrome the Macedonian Renaissance a corpus of secular objects and Orthodox icons Her book offers novel insights into Iconoclasm and proposes a more truncated trajectory of the holy icon in medieval Orthodoxy than has been previously acknowledged **Melania the Younger** Elizabeth A. Clark, 2021-02-11 Melania the Younger From Rome to Jerusalem explores the richly detailed story of Melania an early fifth century Roman Christian aristocrat who renounced her staggering wealth to lead a life of ascetic renunciation Hers is a tale of riches to rags Born to high Roman aristocracy in the late fourth century Melania encountered numerous difficulties posed by family members Roman officials and historical circumstances in disposing of her wealth property spread across at least eight Roman provinces and thousands of slaves Leaving Rome with her entourage a few years before Alaric the Goth's sack of Rome in 410 she journeyed to Sicily then to North Africa finally settling in Jerusalem all while founding monasteries along the way Towards the end of her life she traveled to Constantinople present day Istanbul in an attempt to convert to Christianity her still pagan uncle who was on a state mission to the eastern Roman court Throughout her life she was accustomed to meet and be assisted by emperors and empresses bishops and other high dignitaries Embracing a fairly extreme asceticism Melania died in Jerusalem in 439 A new English translation of her Life composed by a long time assistant who succeeded her in the direction of the male and female monasteries in Jerusalem accompanies this biographical study *The Allure of Monuments in the Roman Empire* Kimberly Brooke Cassibry, 2009 **Sacred Stimulus** Galit Noga-Banai, 2018-06-01 Sacred Stimulus offers a thorough exploration of Jerusalem's role in the formation and formulation of Christian art in Rome during the fourth and fifth centuries The visual vocabulary discussed by Galit Noga Banai gives an alternative access point to the mnemonic efforts conceived while Rome converted to Christianity not in comparison to pagan art in Rome not as reflecting the struggle with the emergence of New Rome in the East Constantinople

but rather as visual expressions of the confrontation with earthly Jerusalem and its holy places After all Jerusalem is where the formative events of Christianity occurred and were memorialized Sacred Stimulus argues that already in the second half of the fourth century Rome constructed its own set of holy sites and foundational myths while expropriating for its own use some of Jerusalem's sacred relics legends and sites Relying upon well known and central works of art including mosaic decoration sarcophagi wall paintings portable art and architecture Noga Banai exposes the omnipresence of Jerusalem and its position in the genesis of Christian art in Rome Noga Banai's consideration of earthly Jerusalem as a conception that Rome used or had to take into account in constructing its own new Christian ideological and cultural topography of the past sheds light on connections and analogies that have not necessarily been preserved in the written evidence and offers solutions to long standing questions regarding specific motifs and scenes

The Cambridge Companion to Constantinople Sarah Bassett, 2022-03-17 The collected essays explore late antique and Byzantine Constantinople in matters sacred political cultural and commercial

Archaeology and the Cities of Asia Minor in Late Antiquity Ortwin Dally, Christopher John Ratté, 2011 The city was the fundamental social institution of Greek and Roman culture More than the sack of Rome the abandonment of provincial towns throughout the Mediterranean world in late antiquity fourth seventh centuries A D marks the beginning of the Middle Ages This volume examines archaeological evidence for this last phase of urban life in Asia Minor one of the Roman empire's most prosperous regions Based on the proceedings of a symposium co sponsored by the University of Michigan and the German Archaeological Institute it brings together studies by an international group of scholars on topics ranging from the public sculpture of Constantinople to the depopulation of the Anatolian countryside in early Byzantine times

Social and Political Life in Late Antiquity William Bowden, Adam Gutteridge, Carlos Machado, 2006 This collection of papers arising from the conference series Late Antique Archaeology examines the social and political structures of the late antique period and the ways in which they are manifested in the archaeological and textual record

The Sculptural Environment of the Roman Near East Yaron Z. Eliav, Elise A. Friedland, Sharon Herbert, 2008 Public sculptures were the mass media of the Roman world They populated urban centers throughout the empire serving as a plastic language that communicated political religious and social messages This book brings together twenty eight experts who otherwise rarely convene text based scholars of the Greco Roman Jewish and Christian realms from the fields of classics history and religion and specialists in the artistic traditions of Greece and Rome as well as art historians and archaeologists Utilizing the full spectrum of ancient sources the book examines the multiple at times even contradictory meanings and functions that statues served within the complex world of the Roman Near East Moreover it situates the discussion of sculpture in the broader context of antiquity in order to reevaluate long held scholarly consensus on such ideas as the essence of Hellenism the culture that emerged from the encounter of Greco Romans with the Near East and the everlasting conflict among paganism Christianity and Judaism

Rome and Constantinople Raymond Van Dam, 2010 Imperial Rome

and Christian Constantinople were both astonishingly large cities with over sized appetites that served as potent symbols of the Roman Empire and its rulers Esteemed historian Raymond Van Dam draws upon a wide array of evidence to reveal a deep interdependence on imperial ideology and economy as he elucidates the parallel workaday realities and lofty images in their stories Tracing the arc of empire from the Rome of Augustus to Justinian s Constantinople he masterfully shows how the changing political structures ideologies and historical narratives of Old and New Rome always remained rooted in the bedrock of the ancient Mediterranean s economic and demographic realities The transformations in the Late Roman Empire brought about by the rise of the military and the church required a rewriting of the master narrative of history and signaled changes in economic systems Just as Old Rome had provided a stage set for the performance of Republican emperorship New Rome was configured for the celebration of Christian rule As it came to pass a city with too much history was outshone by a city with no history Provided with the urban amenities and an imagined history appropriate to its elevated status

Constantinople could thus resonate as the new imperial capital while Rome on the other hand was reinvented as the papal city **Studies on the History and Topography of Byzantine Constantinople** Paul Magdalino,2007 Constantinople originated in 330 A D as the last great urban foundation of the ancient world When it was sacked by the Fourth Crusade in 1204 it was the greatest city of the European Middle Ages The studies in the present volume examine aspects of this long and complex history as reflected in the topography monuments self image and political status of medieval Constantinople They include a revised English version of a monograph published in French ten years ago nine reprinted articles and two published here for the first time **War in Late Antiquity** A. D. Lee,2007-09-11 This book Explores the implications of war and the army in a broad range of areas encompassing politics the economy and social life Pays particular attention to the experience of war from the perspective of non combatants Investigates the religious dimension of military life and the role of the army in implementing religious policy Approaches familiar subjects from new perspectives offering novel insights into the many facets of late Roman history Publisher

U. Weiler,2017 This book explores how societies put the past to use and how in the process they represented it in short their historical culture It brings together anthropologists historians and literary scholars to address the means by which societies groups and individuals have engaged with the past and expressed their understanding of it The utility of the past has proven almost as infinitely variable as the modes of its representation It might be a matter of learning lessons from experience or about the legitimacy of a cause or regime or the reputation of an individual Rival versions and interpretations reflected but also helped to create and sustain divergent communities and world views With so much at stake manipulations distortions and myths proliferated But given also that evidence of past societies was fragmentary fragile and fraught with difficulties for those who sought to make sense of it imaginative leaps and creativity necessarily came into the equation Paradoxically the very idea that the past was indeed useful was generally bound up with an image of history as inherently truthful But then notions of truth proved malleable even within one society culture or period Concerned with what engagements with the past can reveal about the wider intellectual and cultural frameworks they took place within this book is of relevance to anyone interested in how societies communities and individuals have acted on their historical consciousness **Choice** ,2004
