Consciousness - The Power of Vibration and Frequency N.J. Powell, 2024-02-15 Embark on a captivating journey into the depths of consciousness with *Consciousness The Power of Vibration and Frequency* Explore the profound interplay between consciousness and subtle energies from ancient traditional wisdom to modern science Uncover how vibration and frequency transform the human experience unlocking new dimensions of awareness and spiritual growth Delve into their impact on the energy body and consciousness from environmental forces to investigating the metaphysical realm where ancient beliefs intersect with modern practices Explore the mysteries of spiritual and dream states guided by illuminating research and practical wisdom This comprehensive study offers valuable insights and actionable guidance for personal evolution while providing clarity and simplicity for all readers *Paradigm shift towards a spiritual worldview* Franz Günter Leicht, 2021-04-26 Since the middle end of 1993 I have been grappling intensively with questions about our existence This book is the result of my long term study with which I have tried to inspect our current worldview the materialistic worldview It shows that the sciences have come up with answers that question their own assumptions and ideas about this world E g the world famous physicist Stephen W Hawking said that it is not really possible for physics to clarify whether the material world is a real world According to the latest findings in physics the material world can also be an imaginary world I m investigating this question in detail and come to the conclusion that we need a new worldview This is the spiritual worldview This new worldview clearly states that there is a non material spirit that is responsible for the material world What this means for each and every one of us is revealed in this study *A new paradigm of reality?* Gonzalo Rodríguez-Fraile, 2015-11-04 The vision that culture has historically offered about reality has failed to help humans to live fully or to achieve their potential A knowledge revolution has been taking place in recent years that once it is understood can completely transform human beings offering new solutions to personal and collective problems because their root causes have been identified at last What we now know means that we can understand spiritual truths and their multiple dimensions without abandoning rationality This new vision is strong enough to put an end to human suffering and boost inner peace which is for what every being human yearns New science sees an intelligent design in the whole Universe Quantum physics

has revolutionized our knowledge of reality All scientists are now aware of the quantum enigmas but not everyone agrees on how to interpret them This book offers an interpretation that might explain them and one that is based on the idea of science within consciousness As you read the book it will become evident that this interpretation most closely resembles the vision of reality that both the perennial wisdom of Humanity and the teachings of the great spiritual masters have offered us throughout history The first part of the book outlines briefly what some of the leading thinkers on science and philosophy have to say about reality and how this new vision of the world is converging with what the perennial wisdom of Humanity has been saying throughout our history The second part seeks to explain what can happen to us when we are exposed to this new knowledge and how all of us can change inside ourselves in the light of this information This book aims to unite not divide helping Humanity to raise its level of consciousness allowing us to live a higher quality life in accordance with our spiritual dimension

The Divine Light Sorin Cerin, 2010-11-10 Everything has started by some few dreams which not just that I would never forget my entire life but more than that I don't think it was just dreams in the right sense of the notion. A dream I was conscious during the rest that I was sleeping. What it could be said that I was dreaming is nothing else than a real experience in a space from where I can come back anytime in the world where I am sleeping. I was at the beginning somewhere on the fringe of an unknown town in the night. While I have looked at the multicolored lights from any distance I started to become easier so easy that I felt in a moment I could fly.
