 Although academics have never lacked for critics publications on the profession tend to be either popularized polemics which
 are engaging but misleading or scholarly analyses which are intellectually responsible but of little interest to anyone but
 specialists In Pursuit of Knowledge offers an alternative a unique portrait of academic life that should appeal to both experts
 and a general audience Drawing on a wide range of disciplines including higher education history law sociology economics
 and literature the book focuses on the ways in which the pursuit of status has undermined the pursuit of knowledge Deborah
 Rhode argues that both individual scholars and institutions in higher education are caught in an arms race of reputation The
 result has been to skew priorities in scholarship erode commitments to teaching compromise efforts of public intellectuals
 and impede effectiveness in administration The book offers several solutions to counter these pervasive problems in our
 research institutions Rhode makes a case for increasing accountability and realigning reward systems She argues that what
 is needed is a greater sense of responsibility among universities and their faculties to narrow the gap between academic
 ideals and practices In Pursuit of Knowledge is meticulously researched and elegantly written It is also exceptionally
 entertaining in its use of quotations culled from over a hundred academic novels including works by Kingsley Amis Saul
 Bellow David Lodge and C P Snow For example from P G Wodehouse s The Girl in Blue The Agee woman told us for three
 quarters of an hour how she came to write her beastly book when a simple apology was all that was required The result is a
 highly readable but also deeply reflective analysis of the academic profession **GMAT** ,2004 *Library Journal* ,2004
