

## 1.0 Installation

### 1.1 INSTALL SIMPLY BLUE COMMANDER

The Simply Blue Commander is an easy to use application which enables you to send single commands to the LMX9830/LMX9838 Evalboard. The built-in command and event interpreter generates an easy to read log of the UART traffic between the application and the LMX9830/LMX9838. For the installation of the program please refer to the "Simply Blue Commander User Guide". After installation please make sure the connection between PC and Board is set up and working. The screen should come up like shown in Figure 1-1 (screens shown are for LMX9838).

Figure 1-1. Simply Blue Commander

### 1.2 INSTALL IVT BLUETOOTH STACK

In case you do not have any other Bluetooth device for testing, each LMX9830/LMX9838 Evaluation board includes one BT USB Dongle. This dongle is a standard Bluetooth USB dongle.

In order to be able to work with a HCI based dongle, a host stack (windows stack) has to be installed on your PC. The dongle is shipped with the IVT Windows stack.

Please insert the CD delivered with the BT USB Dongle and follow the instructions of the setup. After the installation please plug the dongle into an available USB port. The PC should detect the dongle and install the necessary drivers.

Afterwards the stack is ready and should show up as the picture below. The task bar should include a blue/white colored Bluetooth sign.

**NOTE:** The IVT Stack is only necessary in combination with the Bluetooth USB Dongle, which can be used as counterpart for the LMX9830/LMX9838. It is not necessary to drive the LMX9830/LMX9838.
