**A Study Course In Homoeopathy** Phyllis Speight,2011-09-30 Some years ago Health Science Press issued a correspondence course in Homeopathy It proved invaluable to students providing a sound background of training in Homoeopathy At that time graduating students sought a Diploma or Certificate or other recognition of their new qualification However it was felt that a Diploma could not be awarded as such a document would have no official recognition in either the alternative or orthodox medical world and would therefore be of little value to the student When the correspondence course was discontinued the remaining stock was sold as a book with the test papers cancelled This work proved to be exceptionally popular In view of the guidance that this book offers to the seriously interested student of Homoeopathy the course has been revised by Phyllis Speight This book contains twelve essential lessons and their corresponding test papers Specimen answers at the end of the book will enable students to compare and evaluate their knowledge

*Identification and Treatment of Alcohol Dependency* Professor Colin R. Martin,2008 Colin Martin has brought together an excellent set of contributors to produce a truly comprehensive text that will ensure all interested professionals can not only update their

knowledge but also better understand each other's roles and how best to help patients and clients through shared working to achieve a common goal of better health. This book is not just for people who see themselves as having a primary role in the field but also for those teachers, the police and family members who live daily with its effects. Professor Dame Betty Kershaw, University of Sheffield, UK. Alcohol dependency represents an enduring problem for both the individual and wider society. Despite contemporary media coverage on increasingly dangerous levels of drinking in the United Kingdom, the fact remains that excessive alcohol consumption has been a distinguishing feature of Western society for generations. This book is arranged by a number of themed parts largely representing the key areas in the process of facilitating access to effective clinical management. The book will also be of interest to the wider public who have an interest or concern in relation to alcohol dependency. Contents include: Part 1 Identification; Part 2 Medical interventions; Part 3 Psychological interventions; Part 4 Contemporary issues in the identification and treatment of alcohol dependency; Part 5 Clients with complex needs; Part 6 Reproductive and developmental concerns.

*Highs & Lows* Lorraine Greaves, Nancy Poole, 2007. Women's and girls' substance use is an important health, economic and social issue in Canada. However, most books about alcohol and other drug use do not address the unique needs and circumstances of this population. *Highs & Lows* draws on the latest theory and research to offer strategies for improving practice and developing policy to support women with substance use problems. This unique book includes contributions from nearly 100 experts on women's substance use including psychiatrists, psychologists, social workers, clinical therapists, health promoters, academics, alternative health care providers, women's health advocates and women who have personally been affected by substance use. The book includes in-depth chapters on the interconnection of trauma, mental health and substance use problems for women, pregnancy, mothering and substance use, innovative treatment, harm reduction and prevention programs designed with women's needs in mind, challenges and opportunities for improved research, treatment and policy development. *Highs & Lows* also includes snapshots of the latest in women-centred research, treatment and policy innovations, statistics on women's substance use in Canada, women's personal narratives of their experiences of substance use problems. *Highs & Lows* is a valuable resource for program developers and administrators, researchers and policy makers, therapists and counsellors and educators and students. It is an ideal choice as a course text on this topic. *Highs & Lows* was developed through a partnership between the British Columbia Centre of Excellence for Women's Health and the Centre for Addiction and Mental Health.
