Transfer Power Princeton Legacy Library:

Sovereign Anxiety Javed Iqbal Wani, 2023-11-16 Studies sovereignty and law and argues that public order laws are an expression of sovereign anxiety **Transfer of Power in India** Vapal Pangunni Menon, 2015-12-08 This full account of the partition of India and the transfer of power from England begins with the outbreak of war in 1939 and ends with the transfer itself in 1947 Originally published in 1957 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 From Consent to Coercion Bryan Evans, Carlo Fanelli, Leo Panitch, Donald Swartz, 2023-02-27 From Consent to Coercion examines the increasing assault against trade union rights and freedoms in Canada by federal and provincial governments Centring the struggles of Canadian unionized workers this book explores the diminution of the welfare state and the impacts that this erosion has had on broader working class rights and standards of living The fourth edition witnesses the passing of an era of free collective bargaining in Canada an era in which the state and capital relied on obtaining the consent of workers and unions to act as subordinates in Canada's capitalist democracy It looks at how the last twenty years have marked a return to a more open reliance of the state and capital on coercion on force and on fear to secure that subordination From Consent to Coercion considers this conjuncture in the Canadian political economy amid growing precarity poverty and polarization in an otherwise indeterminate period of austerity This important edition calls attention to the urgent task of rebuilding and renewing socialist politics of thinking ambitiously and meeting new challenges with unique solutions to the left of social democracy *Challenged Justice: In Pursuit of Judicial Independence* Shimon Shetreet, Hiram Chodosh, Helland Eric, 2021-08-24 Challenged Justice In Pursuit of Judicial Independence is an academic continuation of the previous volumes on judicial Independence edited by Shimon Shetreet with others Jules Deschenes Christopher Forsyth and Wayne McCormack All books were published by Brill Nijhoff Judicial Independence The Contemporary Debate 1985 The Culture of Judicial Independence Conceptual Foundations and Practical Challenges 2012 The Culture of Judicial Independence Rule of Law and World Peace 2014 and The Culture of Judicial Independence in a Globalised World 2016 This book offers academic articles by distinguished jurists on judicial independence and judicial process in many jurisdictions including indicators of justice and analysis of international Standards on judicial independence and judicial ethics *Governing Extractive Industries* Anthony Bebbington, Abdul-Gafaru Abdulai, Denise Humphreys Bebbington, Marja Hinfelaar, Cynthia Sanborn, 2018-06-20 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Proposals for more effective natural resource governance

Smoking Privileges Laura D. Hirshbein, 2015-01-31 Current public health literature suggests that the mentally ill may represent as much as half of the smokers in America In **Smoking Privileges** Laura D Hirshbein highlights the complex problem of mentally ill smokers placing it in the context of changes in psychiatry in the tobacco and pharmaceutical industries and in the experience of mental illness over the last century Hirshbein a medical historian and clinical psychiatrist first shows how cigarettes functioned in the old system of psychiatric care revealing that mental health providers long ago noted the important role of cigarettes within treatment settings and the strong attachment of many mentally ill individuals to their cigarettes Hirshbein also relates how as the sale of cigarettes dwindled the tobacco industry quietly researched alternative markets including those who smoked for psychological reasons ultimately discovering connections between mental states and smoking and the addictive properties of nicotine However **Smoking Privileges** warns that to see smoking among the mentally ill only in terms of addiction misses how this behavior fits into the broader context of their lives Cigarettes not only helped structure their relationships with other people but also have been important objects of attachment Indeed even after psychiatric hospitals belatedly instituted smoking bans in the late twentieth century smoking remained an integral part of life for many seriously ill patients with implications not only for public health but for the ongoing treatment of psychiatric disorders Making matters worse well meaning tobacco control policies have had the unintended consequence of further stigmatizing the mentally ill A groundbreaking look at a little known public health problem **Smoking Privileges** illuminates the intersection of smoking and mental illness and offers a new perspective on public policy regarding cigarettes

Currency Wars with China and Japan in Western Newsmagazines Damien Ng, 2022-02-27 This book explores China's currency wars with its trading partners in four Western newsmagazines *Time* *The Economist* *L Express* and *Der Spiegel* Based on both quantitative and qualitative approaches the interdisciplinary approach adopted in the research draws on two analytical frameworks from the realm of critical discourse analysis van Leeuwen's socio semantic inventory of social actor representation and van Dijk's concepts of macro rules as the overarching approaches to understand the changing dynamics of international relations and the global economy through Western media The sample in this study consists of 160 texts half of which are focused on China and the other half on Japan across a period of 12 months in 2010 China and in 1987 Japan Through the comparison of Western representation between China and Japan the similarities and differences in their coverage have been revealed as even more striking with regards to global politics and the international economy The findings obtained from the empirical research have revealed that China was not only reported more unfavourably than Japan in terms of depth but also across a broader range of areas spanning economics politics and military affairs It has also emerged that all the four Western newsmagazines tended to centre their coverage on the US and China in 2010 and the US and Japan in 1987 although they did not speak in one collective voice with regard to their coverage of China and Japan
