Transform Your Life Through Handwriting:

Your Handwriting Can Change Your Life Vimala Rodgers, 2013-04-16 When we purposefully change our handwriting we introduce attitudes that can improve our relationships give us the impetus to achieve and take risks and simply bring out the best in us This is because our handwriting is a reflection of our innermost thoughts and feelings When we fall in love survive a serious illness or change careers our view of life is dramatically altered and as a result our handwriting patterns change Conversely desired transformations can result from intentionally changing the way specific letters are written Stick to that diet by changing the letter T Avoid being overlooked for that well deserved promotion by changing the letter G Reduce stress and cease juggling too many things at once by changing the letter S Overcome shyness or stage fright by changing the letter A Included is an enlightening assessment test that identifies those personality traits requiring attention Your Handwriting Can Change Your Life profoundly reveals that the key to making dreams come true is as simple as putting pen to paper
