Transnational Spaces Routledge Research In Transnationalism:

Transnational Spaces Philip Crang, Claire Dwyer, Peter Jackson, 2004-07-31 Social relations in our globalising world are increasingly stretched out across the borders of two or more nation states Yet despite the growing academic interest in transnational economic networks political movements and cultural forms too little attention has been paid to the transformations of space that these processes both reflect and reproduce **Transnational Spaces** takes an innovative perspective looking at transnationalism as a social space that can be occupied by a wide range of actors not all of whom are themselves directly connected to transnational migrant communities

New Transnational Social Spaces Ludger Pries, 2013-02-01 Recent terms such as globalisation virtual reality and cyberspace indicate that the traditional notion of the geographic and the social space is changing **New Transnational Social Spaces** illustrates the contemporary relationship between the social and the spatial which has emerged with new communication and transportation technologies alongside the massive transnational movement of people

International Migration and the Globalization of Domestic Politics Rey Koslowski, 2006 This book considers the impact of migrant communities on the politics of their home nations with case studies from Israel Turkey Kurdistan the Dominican Republic Mexico and Sri Lanka

Migrant Citizenship from Below K. Shinozaki, 2015-05-06 **Migrant Citizenship from Below** explores the dynamic local and transnational lives of Filipina and Filipino migrant domestic workers living in Sch nberg Germany Shinozaki examines their irregular migrant citizenship status from above which is produced by complex interactions between Germany's welfare care and migration regimes and the Philippines gendered politics of overseas employment Despite the predominant representation of these workers as invisible these spatially immobile migrants maintain sustained transnational engagements through parenting and religious practices Shinozaki studies the reverse gendered process of international reproductive labor migration in which women traveled first and were later joined by men Despite their structural vulnerability participant observations and biographical interviews with the migrants demonstrate that they enact and negotiate migrant citizenship in the workplace transnational households religious practices and through accessing health provisions

Transnationalism and Urbanism Stefan Krätke, Kathrin Wildner, Stephan Lanz, 2012 The formation of transnational urban spaces is a relevant and challenging field of interdisciplinary research which deserves much more debate in order to deepen our understanding of generating and restructuring urban spaces under conditions of contemporary globalisation processes This edited collection reflects current studies on the relation of transnationalism and urbanism Scholars from disciplines including Geography Ethnography and Urban Planning discuss theoretical approaches methodology and case studies on processes of the production of urban spaces through global economic value chains socio cultural practices and political governance strategies Cities are appropriate sites for an examination of the spatial dimension of transnationality because this is where global processes are concentrated localized transformed and materialize In this context urban space is not merely to be regarded as a setting for transnational

practices but as a constituent force of transnationalism in all its manifestations **Mapping LGBTQ Spaces and Places**

Marianne Blidon, Stanley D. Brunn, 2022-07-11 This book addresses LGBTQ issues in relation to among others law and policy mobility and migration children and family social well being and identity visible and invisible landscapes teaching and instruction parades arts and cartography and mapping A variety of research methods are used to explore identities communities networks and landscapes all which can be used in subsequent research and classroom instruction and disciplinary and interdisciplinary levels This extensive book stimulates future pioneering research ventures in rural and urban settings about existing and proposed LGBTQ policies individual and group mapping visible and invisible spaces and the construction of public and private spaces Through the methodologies and rich bibliographies this book provides a rich source for future comparative research of scholars working in social work NGOs and public policy and community networking and development *Rethinking Transnationalism* Ludger Pries, 2008-08-18 This book presents theoretical contributions to the transnationalism approach and offers empirical studies in the field of the transnationalization of organizations

Transnational Spaces Maja Povrzanović Frykman, 2004 Handbook of Cultural Geography Kay Anderson, 2003 The editors of this genuinely brilliant book seem to dare the reader to argue with them from the first page I would encourage everyone interested in cultural geography or in the cultural turn within a whole set of human geographies to do likewise ANNALS OF THE ASSOCIATION OF AMERICAN GEOGRAPHERS A richly plural and impassioned representation of cultural geography that eschews everything in the way of boundary drawing and fixity A re visioning of the field as a set of engagements with the world it contains a vibrant atlas of ever shifting possibilities Throbbing with commitment and undisciplined in the most positive sense of that term it is exactly what a handbook ought to be Professor Allan Pred Department of Geography University of California at Berkeley Ten sections with a detailed editorial introduction the Handbook of Cultural Geography presents a comprehensive statement of the relation between the cultural imagination and the geographical imagination Emphasising the intellectual diversity of the discipline the Handbook is a textured overview that presents a state of the art assessment of the key questions informing cultural geography while also looking at resonances between cultural geography and other disciplines The Routledge International Handbook of Transnational Studies Margit Fauser, Xóchitl Bada, 2024-01-23 The Routledge International Handbook of Transnational Studies offers a comprehensive overview of the dynamic evolution and the most recent debates in this interdisciplinary field The collection assembles scholarship from the social sciences and the humanities that share a critical perspective extending beyond the nation state The contributions investigate sustained connections events and activities across state borders and acknowledge prevailing global power asymmetries The handbook examines the dynamics of transnational processes across seven main themes epistemological and methodological principles transnational migrant practices and family remittances mobilities and self identities social protection organizations and social movements culture religion and the arts and architecture and urban planning The
